A

Abdominal pain
Small-bowel bacterial overgrowth in children with chronic diarrhea, abdominal pain, or both (de Boissieu et al). 1996;128:203-7
Abnormalities
Congenital hemangioma: evidence of accelerated involution (Boon et al). 1996;128:329-35
Transient congenital hypoparathyroidism: resolution and recurrence in chromosome 22q11 deletion (Greig et al). 1996;128:563-7 (CLO)
Acetaminophen
Diazepam to reduce recurrences of febrile seizures (Rosman) (Letter); (Camfield et al) (Reply). 1996;128:303-4
Acidemia; *see* Hydrogen-ion concentration
Acidosis, lactic
Oxidative phosphorylation defect associated with primary adrenal insufficiency (North et al). 1996;128:688-92 (CLO)
Acids
Effect of omeprazole in the treatment of refractory acid-related diseases in childhood: endoscopic healing and twenty-four-hour intragastric acidity (Kato et al). 1996;128:415-21
Acquired immunodeficiency syndrome
Cardiomyopathy related to acquired immunodeficiency syndrome in children (Steinherz) (Letter); (Domanski et al) (Reply). 1996;128:721
Acyclovir
Frequent recurrence and persistence of varicella-zoster virus infections in children infected with human immunodeficiency virus type 1 (von Seidlein et al). 1996;128:52-7
Herpes zoster infection after bone marrow transplantation in children (Kawasaki et al). 1996;128:353-6
Administration, inhalation
Pilot study to assess the effect of inhaled corticosteroids on lung function in patients with cystic fibrosis (Nikolaizik and Schöni). 1996;128:271-4
Administration, oral
High-dose oral dexamethasone therapy for chronic childhood idiopathic thrombocytopenic purpura (Adams et al). 1996;128:281-3 (CLO)
Administration, topical
Topical ointment therapy benefits premature infants (Nopper et al). 1996;128:660-9
Adolescence
Behavioral intervention to increase condom use among high-risk female adolescents (Orr et al). 1996;128:288-95
Bone density in children and adolescents with cystic fibrosis (Henderson and Madsen). 1996;128:28-34
Increased incidence of non-insulin-dependent diabetes mellitus among adolescents (Pinhas-Hamiel et al). 1996;128:608-15
Reversibility of cerebral ventricular enlargement in anorexia nervosa, demonstrated by quantitative magnetic resonance imaging (Golden et al). 1996;128:296-301
Stress and incidence of bleeding in children and adolescents with hemophilia (Perrin et al). 1996;128:82-8
Treatment of atrichia pubis in adolescent girls with pituitary dwarfism (Dacou-Voutetakis and Kakourou). 1996;128:284-5 (CLO)
Use of minors as bone marrow donors: current attitude and management—a survey of 56 pediatric transplantation centers (Chan et al). 1996;128:644-8

*January, pp. 1-166; February, pp. 167-304; March, pp. 305-446; April, pp. 447-590; May, pp. 591-724 and S1-S62; June, pp. 725-898.

Adrenal cortex diseases
Oxidative phosphorylation defect associated with primary adrenal insufficiency (North et al). 1996;128:688-92 (CLO)
Adrenal cortex hormones
Acute rectus muscle palsy in children as a result of orbital myositis (Pollard). 1996;128:230-3
Pilot study to assess the effect of inhaled corticosteroids on lung function in patients with cystic fibrosis (Nikolaizik and Schöni). 1996;128:271-4
Treatment of immune globulin–resistant Kawasaki disease with pulsed doses of corticosteroids (Wright et al). 1996;128:146-9 (CLO)
Adrenocorticotropic hormone
Adrenocortical function in the very low birth weight infant: improved testing sensitivity and association with neonatal outcome (Korte et al). 1996;128:257-63
Age factors
Reference intervals for serum granulocyte colony-stimulating factor levels in children (Ishiguro et al). 1996;128:208-12
Airway obstruction
Deposition pattern of radiolabeled salbutamol inhaled from a metered-dose inhaler by means of a spacer with mask in young children with airway obstruction (Tal et al). 1996;128:479-84
Efficacy of the Flutter device for airway mucus clearance in patients with cystic fibrosis (Mahesh et al) (Letter); (Konstan et al) (Reply). 1996;128:165-6
Albuterol
Deposition pattern of radiolabeled salbutamol inhaled from a metered-dose inhaler by means of a spacer with mask in young children with airway obstruction (Tal et al). 1996;128:479-84
Efficacy of epinephrine with salbutamol in treatment of acute bronchiolitis (Rusconi and Sideri) (Letter); (Klassen and Menon) (Reply). 1996;128:441-3
Alexander, Hattie E
Hattie E. Alexander (1901–1968) (Katz). 1996;128:717-8 (Profiles)
Allergens
Early detection of specific IgE antibody against house dust mite in children at risk of allergic disease (Sasai et al). 1996;128:834-40
Allergy; *see* Hypersensitivity
Alström syndrome
Natural history of Alström syndrome in early childhood: onset with dilated cardiomyopathy (Michaud et al). 1996;128:225-9
Ambulatory care
A pilot study of outpatient management of febrile neutropenic children with cancer at low risk of bacteremia (Mustafa et al). 1996;128:847-9 (CLO)
Amino acids
Effect of parenteral amino acids on leucine and urea kinetics in preterm infants (Battista et al). 1996;128:130-4
Nonketotic hyperglycinemia: atypical clinical and biochemical manifestations (Steiner et al). 1996;128:243-6 (CLO)
Aminotransferases
Effect of weight reduction on serum transaminase activities in children with simple obesity (Tazawa et al) (Letter); (Vajro) (Reply). 1996;128:587-8
Ammonia
Effective hemodialysis and hemofiltration driven by an extracorporeal membrane oxygenation pump in infants with hyperammonemia (Summar et al). 1996;128:379-82 (CLO)
Anaphylaxis
Exercise-induced anaphylaxis related to specific foods (Policastro) (Letter); (Tilles et al) (Reply). 1996;128:724
Anemia
Anemia, blueberry-muffin rash, and hepatomegaly in a newborn infant (Silver et al). 1996;128:579-86

Anemia—cont'd
Anemia in children with breath-holding spells (Yilmaz and Kükner). 1996;128:440-1 (Letter)
Effect of protein intake on erythropoiesis during erythropoietin treatment of anemia of prematurity (Brown and Shapiro). 1996;128:512-7
Anemia, sickle cell
Colonization with antibiotic-resistant *Streptococcus pneumoniae* in children with sickle cell disease (Steele et al). 1996; 128:531-5
Hydroxyurea therapy in children severely affected with sickle cell disease (Scott et al). 1996;128:820-8
Persistence of fetal hemoglobin production after successful transplantation of cord blood stem cells in a patient with sickle cell anemia (Brichard et al). 1996;128:241-3 (CLO)
Relationship between Fc receptor IIA polymorphism and infection in children with sickle cell disease (Norris et al). 1996; 128:813-9
Anorexia nervosa
Reversibility of cerebral ventricular enlargement in anorexia nervosa, demonstrated by quantitative magnetic resonance imaging (Golden et al). 1996;128:296-301
Anoxia
Decreased ventilatory response to hypoxia in sedated newborn piglets prenatally exposed to cocaine (Suguihara et al). 1996; 128:389-95
Anterior pituitary gland; *see* Pituitary gland, anterior
Anti-antibodies; *see* Antibodies, anti-idiotypic
Antibiotic resistance; *see* Drug resistance, microbial
Antibiotics
Antibiotic-resistant pneumococci (Friedland) (Letter); (Chesney et al) (Reply). 1996;128:862-3
Hemolysis after treatment with ceftriaxone (Scimeca et al). 1996;128:163 (Letter)
Microbial dynamics of persistent purulent otitis media in children (Brook and Frazier). 1996;128:237-40 (CLO)
Resisting the urge to prescribe (Edwards). 1996;128:729-30 (Editor's column)
Risk factors for carriage of drug-resistant *Streptococcus pneumoniae* among children in Memphis, Tennessee (Arnold et al). 1996;128:757-64
Antibodies
Early detection of specific IgE antibody against house dust mite in children at risk of allergic disease (Sasai et al). 1996;128: 834-40
Pneumococcal polysaccharide vaccine in children with chronic renal disease: a prospective study of antibody response and duration (Furth et al). 1996;128:99-101 (CLO)
Steroid-resistant chronic urticaria associated with anti-thyroid microsomal antibodies in a nine-year-old boy (Dreyfus et al). 1996;128:576-8 (CLO)
Total and functional antibody response to a quadrivalent meningococcal polysaccharide vaccine among children (King et al). 1996;128:196-202
Antibodies, anti-idiotypic
Neonatal thrombocytopenia caused by passive transfer of anti-PL^{A1} antibody by blood transfusion (Marzich et al). 1996;128: 137-9 (CLO)
Antigens
Exercise-induced anaphylaxis related to specific foods (Policastro) (Letter); (Tilles et al) (Reply). 1996;128:724
Arthritis, juvenile rheumatoid
Accelerated nodulosis during methotrexate therapy for juvenile rheumatoid arthritis (Muzaffer et al). 1996;128:698-700 (CLO)
Liver biopsy findings in patients with juvenile rheumatoid arthritis receiving long-term, weekly methotrexate therapy (Kugathasan et al). 1996;128:149-51 (CLO)
Macrophage activation syndrome in systemic juvenile rheumatoid arthritis successfully treated with cyclosporine (Ravelli et al). 1996;128:275-8 (CLO)
Aspirin
Gastrointestinal hemorrhage complicating aspirin therapy in acute Kawasaki disease (Matsubara et al). 1996;128:701-3 (CLO)
Asthma
Cough with asthma: Variant or norm? (Callahan) (Letter); (Wald) (Reply). 1996;128:440
Atopic dermatitis; *see* Dermatitis, atopic
Atrichia pubis; *see* Hair
Australia
Growth hormone measurements versus auxology in treatment decisions: the Australian experience (Werther). 1996;128: S47-51 (Symposium)

B

Bacteremia
Effect of number of blood cultures and volume of blood on detection of bacteremia in children (Isaacman et al). 1996; 128:190-5
A pilot study of outpatient management of febrile neutropenic children with cancer at low risk of bacteremia (Mustafa et al). 1996;128:847-9 (CLO)
Bacterial infections
Focal bacterial nephritis (lobar nephronia) in children (Klar et al). 1996;128:850-3 (CLO)
Granulocyte colony-stimulating factor as a marker for bacterial infection in neonates (Kennon et al). 1996;128:765-9
Small-bowel bacterial overgrowth in children with chronic diarrhea, abdominal pain, or both (de Boissieu et al). 1996;128: 203-7
Balloon defecation; *see* Defecation
Beck airway air flow monitor; *see* Equipment and supplies
Behavior
Behavioral intervention to increase condom use among high-risk female adolescents (Orr et al). 1996;128:288-95
Bilirubin
Conjugated bilirubin in neonates with glucose-6-phosphate dehydrogenase deficiency (Kaplan et al). 1996;128:695-7 (CLO)
Bilirubinemia; *see* Hyperbilirubinemia
Binding proteins; *see* Carrier proteins
Biopsy, needle
Liver biopsy findings in patients with juvenile rheumatoid arthritis receiving long-term, weekly methotrexate therapy (Kugathasan et al). 1996;128:149-51 (CLO)
Black Americans
A prevalent mutation for galactosemia among black Americans (Lai et al). 1996;128:89-95
Bleeding; *see* Hemorrhage
Blood
Effect of number of blood cultures and volume of blood on detection of bacteremia in children (Isaacman et al). 1996;128: 190-5
Blood cultures; *see* Hematologic tests
Blood pressure
Effect of calcium on blood pressure (Daniels) (Letter); (Gillman et al) (Reply). 1996;128:302-3
Increased blood pressure in neonates and infants whose mothers smoked during pregnancy (Beratis et al). 1996;128:806-12
Blood transfusion
Neonatal thrombocytopenia caused by passive transfer of anti-PL^{A1} antibody by blood transfusion (Marzich et al). 1996; 128:137-9 (CLO)
Blueberry muffin rash; *see* Food hypersensitivity
Body height
Growth hormone treatment of children with neural tube defects: results from 6 months to 6 years (Rotenstein and Reigel). 1996;128:184-9
Body mass index
Measuring resting energy expenditure in pediatrics (Salas-Salvadó and Martinez). 1996;128:587 (Letter)

Bone density
Bone density in children and adolescents with cystic fibrosis (Henderson and Madsen). 1996;128:28-34
Effect of valproate on bone mineral density (Gillis et al). 1996;128:441 (Letter)
Bone marrow transplantation
Correction of purine nucleoside phosphorylase deficiency by transplantation of allogeneic bone marrow from a sibling (Broome et al). 1996;128:373-6 (CLO)
Herpes zoster infection after bone marrow transplantation in children (Kawasaki et al). 1996;128:353-6
Use of minors as bone marrow donors: current attitude and management—a survey of 56 pediatric transplantation centers (Chan et al). 1996;128:644-8
Book review
The book shelf. 1996;128:252
Brain
Maternal phenylketonuria: magnetic resonance imaging of the brain in offspring (Levy et al). 1996;128:770-5
Neuroimaging studies in children with developmental delay (Cunningham) (Letter); (Majnemer and Shevell) (Reply). 1996;128:302
Reversibility of cerebral ventricular enlargement in anorexia nervosa, demonstrated by quantitative magnetic resonance imaging (Golden et al). 1996;128:296-301
Brain injuries
Somatosensory evoked potentials: predictors of outcome in children with severe brain injury (Adams et al) (Letter); (Cox) (Reply). 1996;128:438-9
Brain neoplasms
Brain tumor recurrence in children treated with growth hormone: the National Cooperative Growth Study experience (Moshang et al). 1996;128:S4-7 (Symposium)
Brazil
Low birth weight and morbidity from diarrhea and respiratory infection in northeast Brazil (Lira et al). 1996;128:497-504
Breast-feeding
Effect of methimazole treatment of maternal thyrotoxicosis on thyroid function in breast-feeding infants (Azizi). 1996;128:855-7 (CLO)
Breath-holding spells; *see* Respiration disorders
Bronchiolitis
Efficacy of epinephrine with salbutamol in treatment of acute bronchiolitis (Rusconi and Sideri) (Letter); (Klassen and Menon) (Reply). 1996;128:441-3
Bronchoalveolar lavage fluid
Increase in the concentration of transforming growth factor beta-1 in bronchoalveolar lavage fluid before development of chronic lung disease of prematurity (Kotecha et al). 1996;128: 464-9

C

C-peptide
Macrosomic infants of nondiabetic mothers (Carter). 1996;128:439-40 (Letter)
Calcitonin
Procalcitonin as a marker for the early diagnosis of neonatal infection (Gendrel et al). 1996;128:570-3 (CLO)
Calcium
Effect of calcium on blood pressure (Daniels) (Letter); (Gillman et al) (Reply). 1996;128:302-3
Cancer; *see* Neoplasms
Cardiac trauma; *see* Heart injuries
Cardiomyopathies; *see* Myocardial diseases
Cardiomyopathy, congestive
Natural history of Alström syndrome in early childhood: onset with dilated cardiomyopathy (Michaud et al). 1996;128:225-9
Cardiorespiratory function; *see* Heart; Lung, physiology
Cardiovascular diseases
Effects of a school-based intervention to reduce cardiovascular disease risk factors in elementary-school children: the Cardiovascular Health in Children (CHIC) Study (Harrell et al). 1996;128:797-805
Carrier proteins
Assays for insulin-like growth factors and their binding proteins: practicalities and pitfalls (Rosenfeld and Gargosky). 1996;128:S52-7 (Symposium)
Thyroid function and serum thyroid binding proteins in prepubertal and pubertal children with chronic renal insufficiency receiving conservative treatment, undergoing hemodialysis, or receiving care after renal transplantation (Castellano et al). 1996;128:784-90
Catheters, indwelling
Right atrial thrombi in children with cancer and indwelling catheters (Korones et al). 1996;128:841-6
Ceftriaxone
Hemolysis after treatment with ceftriaxone (Scimeca et al). 1996;128:163 (Letter)
Celiac disease
High frequency of celiac disease in Down syndrome (George et al). 1996;128:555-7 (CLO)
Central nervous system neoplasms
Massive opioid requirements in children with disseminated central nervous system disease (Jones and Wilkinson) (Letter); (Berde) (Reply). 1996;128:864-5
Cerebral palsy
Prenatal and perinatal factors and cerebral palsy in very low birth weight infants (Grether et al). 1996;128:407-14
Cerebral ventricles
Reversibility of cerebral ventricular enlargement in anorexia nervosa, demonstrated by quantitative magnetic resonance imaging (Golden et al). 1996;128:296-301
CF; *see* Cystic fibrosis
Chest, abnormalities
Cardiorespiratory function before and after corrective surgery in pectus excavatum (Quigley et al). 1996;128:638-43
Chickenpox
Lupus anticoagulant and protein S deficiency in children with postvaricella purpura fulminans or thrombosis (Manco-Johnson et al). 1996;128:319-23
Child
Effects of a school-based intervention to reduce cardiovascular disease risk factors in elementary-school children: the Cardiovascular Health in Children (CHIC) Study (Harrell et al). 1996;128:797-805
Child, preschool
Effect of circumcision on incidence of urinary tract infection in preschool boys (Craig et al). 1996;128:23-7
Child abuse
Studies of collagen synthesis and structure in the differentiation of child abuse from osteogenesis imperfecta (Steiner et al). 1996;128:542-7
Child development disorders
Neuroimaging studies in children with developmental delay (Cunningham) (Letter); (Majnemer and Shevell) (Reply). 1996;128:302
Chlamydia trachomatis
Behavioral intervention to increase condom use among high-risk female adolescents (Orr et al). 1996;128:288-95
Chloral hydrate
Comparison of chloral hydrate and midazolam for sedation of neonates for neuroimaging studies (McCarver-May et al). 1996;128:573-6 (CLO)
Chlorides
Severe hyperchloriduria-hyperkaliuria: A new congenital renal tubular abnormality? (Meyburg et al). 1996;128:376-8 (CLO)
Choledocholithiasis; *see* Common bile duct calculi
Chondrodysplasia punctata
Response to growth hormone in children with chondrodysplasia (Key and Gross). 1996;128:S14-7 (Symposium)

Chromosomes
Transient congenital hypoparathyroidism: resolution and recurrence in chromosome 22q11 deletion (Greig et al). 1996;128:563-7 (CLO)
Chronic granulomatous disease; *see* Granulomatous disease, chronic
Circadian rhythm
Circadian variations of urinary electrolyte concentrations in preterm and term infants (Trotter et al). 1996;128:253-6
Circumcision
Effect of circumcision on incidence of urinary tract infection in preschool boys (Craig et al). 1996;128:23-7
Cisapride
Cisapride-induced long QT interval (Lewin et al). 1996:128:279-81 (CLO)
Clarithromycin
Treatment of nontuberculous mycobacterial lymphadenitis with clarithromycin plus rifabutin (Berger et al). 1996;128:383-6 (CLO)
Cleft lip
Hyponatremia caused by a reset osmostat in a neonate with cleft lip and palate and panhypopituitarism (Thiagarajan et al). 1996;128:561-3 (CLO)
Cleft palate
Hyponatremia caused by a reset osmostat in a neonate with cleft lip and palate and panhypopituitarism (Thiagarajan et al). 1996;128:561-3 (CLO)
Clinic charges; *see* Fees and charges
Cocaine
Decreased ventilatory response to hypoxia in sedated newborn piglets prenatally exposed to cocaine (Suguihara et al). 1996;128:389-95
Collagen
Studies of collagen synthesis and structure in the differentiation of child abuse from osteogenesis imperfecta (Steiner et al). 1996;128:542-7
Common bile duct calculi
Choledocholithiasis in a premature neonate (Ishitani et al). 1996;128:853-5 (CLO)
Complement 8
Invasive *Haemophilus influenzae* type b infection in a child with familial deficiency of the beta subunit of the eighth component of complement (Pallares et al). 1996;128:102-3 (CLO)
Condoms
Behavioral intervention to increase condom use among high-risk female adolescents (Orr et al). 1996;128:288-95
Congenital defects; *see* Abnormalities
Congenital syphilis; *see* Syphilis, congenital
Conjugate vaccines; *see* Vaccines
Constipation
Balloon defecation as a predictor of outcome in children with functional constipation and encopresis (Loening-Baucke). 1996;128:336-40
Continuous feeding method; *see* Feeding methods
Contraception
Behavioral intervention to increase condom use among high-risk female adolescents (Orr et al). 1996;128:288-95
Convulsions, febrile
Diazepam to reduce recurrences of febrile seizures (Rosman) (Letter); (Camfield et al) (Reply). 1996;128:303-4
Cord blood; *see* Fetal blood
Corrective surgery; *see* Surgery, operative
Correspondence. Letters. 1996;128:163-6, 302-4, 438-46, 587-90, 719-24, 862-6
Corticosteroids; *see* Adrenal cortex hormones
Cost-benefit analysis
Futile care in the pediatric intensive care unit: ethical and economic considerations (Tilford and Fiser). 1996;128:725-7 (Editor's column)
Nutrition via gastrostomy tube in children with cancer (Hirsch) (Letter); (Aquino and Sandler) (Reply). 1996;128:164
Resource consumption and the extent of futile care among patients in a pediatric intensive care unit setting (Sachdeva et al). 1996;128:742-7
Cough
Cough with asthma: Variant or norm? (Callahan) (Letter); (Wald) (Reply). 1996;128:440
Cyclosporine
Macrophage activation syndrome in systemic juvenile rheumatoid arthritis successfully treated with cyclosporine (Ravelli et al). 1996;128:275-8 (CLO)
Production of interleukin-5 and the suppressive effect of cyclosporin A in childhood severe atopic dermatitis (Ishii et al). 1996;128:152-5 (CLO)
Cystic fibrosis
Bone density in children and adolescents with cystic fibrosis (Henderson and Madsen). 1996;128:28-34
Efficacy of the Flutter device for airway mucus clearance in patients with cystic fibrosis (Mahesh et al) (Letter); (Konstan et al) (Reply). 1996;128:165-6
Hypotonic dehydration in cystic fibrosis: Mild or severe disease phenotype? (Bianchetti and Mauri). 1996;128:723 (Letter)
Mild CF phenotype associated with T338I missense mutation (Padoan et al). 1996;128:721-2 (Letter)
Pilot study to assess the effect of inhaled corticosteroids on lung function in patients with cystic fibrosis (Nikolaizik and Schöni). 1996;128:271-4
Ultrasound measurement of gastric emptying time in patients with cystic fibrosis and effect of ranitidine on delayed gastric emptying (Cucchiara et al). 1996;128:485-8
Cytokines
Neutrophil and cytokine activation with neonatal extracorporeal membrane oxygenation (Fortenberry et al). 1996;128:670-8
Cytomegaloviruses
Cytomegalovirus reinfection in young children (Bale et al). 1996;128:347-52
Ménétrier disease of childhood: role of cytomegalovirus and transforming growth factor alpha (Sferra et al). 1996;128:213-9

D

Databases, factual
Utility of the National Cooperative Growth Study database for safety reporting (Graves and National Cooperative Growth Study). 1996;128:S1-3 (Symposium)
Day care
Cytomegalovirus reinfection in young children (Bale et al). 1996;128:347-52
Defecation
Balloon defecation as a predictor of outcome in children with functional constipation and encopresis (Loening-Baucke). 1996;128:336-40
Dehydration
Hypotonic dehydration in cystic fibrosis: Mild or severe disease phenotype? (Bianchetti and Mauri). 1996;128:723 (Letter)
Delivery rooms
Prophylactic indomethacin therapy in the first twenty-four hours of life for the prevention of patent ductus arteriosus in preterm infants treated prophylactically with surfactant in the delivery room (Couser et al). 1996;128:631-7
Dermatitis, atopic
Production of interleukin-5 and the suppressive effect of cyclosporin A in childhood severe atopic dermatitis (Ishii et al). 1996;128:152-5 (CLO)
Dermatomyositis
Failure of pulse intravenous methylprednisolone treatment in juvenile dermatomyositis (Lang and Dooley). 1996;128:429-32
Developmental delay; *see* Child development disorders

Dexamethasone
High-dose oral dexamethasone therapy for chronic childhood idiopathic thrombocytopenic purpura (Adams et al). 1996;128:281-3 (CLO)
Diabetes mellitus
Ultralente insulin treatment of transient neonatal diabetes mellitus (Mitamura et al). 1996;128:268-70 (CLO)
Diabetes mellitus, non-insulin-dependent
Increased incidence of non-insulin-dependent diabetes mellitus among adolescents (Pinhas-Hamiel et al). 1996;128:608-15
An ounce of prevention (Chua and Leibel). 1996;128:591-3 (Editor's column)
Diagnosis, differential
Abnormal serum uric acid levels in children (Wilcox). 1996;128:731-41
Recurrent necrotizing jejunitis in a child (Taufiq et al). 1996;128:246-9 (CLO)
Reiter syndrome initially misdiagnosed as Kawasaki disease (Bauman et al). 1996;128:366-9 (CLO)
Studies of collagen synthesis and structure in the differentiation of child abuse from osteogenesis imperfecta (Steiner et al). 1996;128:542-7
Diagnostic imaging
Routine diagnostic imaging for childhood urinary tract infections: a systematic overview (Dick and Feldman). 1996;128:15-22
Diarrhea
Atypical hemolytic-uremic syndrome: a comparison with postdiarrheal disease (Siegler et al). 1996;128:505-11
Clinical heterogeneity in congenital sucrase-isomaltase deficiency (Treem). 1996;128:727-9 (Editor's column)
Diarrhea in young children associated with *Escherichia coli* non-O157 organisms that produce Shiga-like toxin (Huppertz et al). 1996;128:341-6
Glucose polymer as a cause of protracted diarrhea in infants with unsuspected congenital sucrase-isomaltase deficiency (Newton et al). 1996;128:753-6
Low birth weight and morbidity from diarrhea and respiratory infection in northeast Brazil (Lira et al). 1996;128:497-504
Small-bowel bacterial overgrowth in children with chronic diarrhea, abdominal pain, or both (de Boissieu et al). 1996;128:203-7
Diazepam
Diazepam to reduce recurrences of febrile seizures (Rosman) (Letter); (Camfield et al) (Reply). 1996;128:303-4
Didanosine
Cardiomyopathy related to acquired immunodeficiency syndrome in children (Steinherz) (Letter); (Domanski et al) (Reply). 1996;128:721
Diet
A prevalent mutation for galactosemia among black Americans (Lai et al). 1996;128:89-95
Raising couch potatoes (little spuds and how they grew—and grew) (Balistreri). 1996;128:591 (Editor's column)
Differential diagnosis; *see* Diagnosis, differential
Dilated cardiomyopathy; *see* Cardiomyopathy, congestive
Discharge, hospital; *see* Patient discharge
DNA, mitochondrial
Depletion of mitochondrial deoxyribonucleic acid in a family with fatal neonatal liver disease (Bakker et al). 1996;128:683-7 (CLO)
Depletion of mitochondrial DNA in the liver of a patient with lactic acidemia and hypoketotic hypoglycemia (Maaswinkel-Mooij et al). 1996;128:679-83 (CLO)
Expanding spectrum of mitochondrial disorders (Sokol). 1996;128:597-9 (Editor's column)
Donors; *see* Tissue donors
Dose-response relationship, drug
Low-molecular-weight heparin in pediatric patients with thrombotic disease: a dose finding study (Massicotte et al). 1996;128:313-8
Treatment of immune globulin–resistant Kawasaki disease with pulsed doses of corticosteroids (Wright et al). 1996;128:146-9 (CLO)
Down syndrome
High frequency of celiac disease in Down syndrome (George et al). 1996;128:555-7 (CLO)
Drug resistance, microbial
Antibiotic-resistant pneumococci (Friedland) (Letter); (Chesney et al) (Reply). 1996;128:862-3
Colonization with antibiotic-resistant *Streptococcus pneumoniae* in children with sickle cell disease (Steele et al). 1996;128:531-5
Resisting the urge to prescribe (Edwards). 1996;128:729-30 (Editor's column)
Risk factors for carriage of drug-resistant *Streptococcus pneumoniae* among children in Memphis, Tennessee (Arnold et al). 1996;128:757-64
Steroid-resistant chronic urticaria associated with anti-thyroid microsomal antibodies in a nine-year-old boy (Dreyfus et al). 1996;128:576-8 (CLO)
Ductus arteriosus, patent
Influence of infection on patent ductus arteriosus and chronic lung disease in premature infants weighing 1000 grams or less (Gonzalez et al). 1996;128:470-8
Prophylactic indomethacin therapy in the first twenty-four hours of life for the prevention of patent ductus arteriosus in preterm infants treated prophylactically with surfactant in the delivery room (Couser et al). 1996;128:631-7
Recommendations for the postnatal use of indomethacin: an analysis of four separate treatment strategies (Clyman). 1996;128:601-7 (Editor's column)
Reopening of the ductus arteriosus after closure with indomethacin: importance of sustained effective indomethacin serum concentrations (Gal et al). 1996;128:719 (Letter)
Duration of stay, hospital; *see* Length of stay
Dwarfism, pituitary
Treatment of atrichia pubis in adolescent girls with pituitary dwarfism (Dacou-Voutetakis and Kakourou). 1996;128:284-5 (CLO)
Dyspepsia
Symptoms and *Helicobacter pylori* infection in children (Sferlazzas et al) (Letter); (Drumm and Gormally) (Reply). 1996;128:588-9

E

Eating disorders
Reversibility of cerebral ventricular enlargement in anorexia nervosa, demonstrated by quantitative magnetic resonance imaging (Golden et al). 1996;128:296-301
Echocardiography
Pediatric echocardiography: current role and a review of technical advances (Rice et al). 1996;128:1-14
Recognition and management of nonpenetrating cardiac trauma in children (Bromberg et al). 1996;128:536-41
Economic competition
Futile care in the pediatric intensive care unit: ethical and economic considerations (Tilford and Fiser). 1996;128:725-7 (Editor's column)
Resource consumption and the extent of futile care among patients in a pediatric intensive care unit setting (Sachdeva et al). 1996;128:742-7
Editor's column
Building on a tradition (Balistreri). 1996;128:97-8
Clinical heterogeneity in congenital sucrase-isomaltase deficiency (Treem). 1996;128:727-9
Etiology of nutritional rickets: geographic variations (Mimouni). 1996;128:600-1
Expanding spectrum of mitochondrial disorders (Sokol). 1996;128:597-9

Editor's column—cont'd
Futile care in the pediatric intensive care unit: ethical and economic considerations (Tilford and Fiser). 1996;128:725-7
An ounce of prevention (Chua and Leibel). 1996;128:591-3
Prone sleeping in healthy infants and victims of sudden infant death syndrome (Hunt). 1996;128:594-6
Raising couch potatoes (little spuds and how they grew—and grew) (Balistreri). 1996;128:591
Recommendations for the postnatal use of indomethacin: an analysis of four separate treatment strategies (Clyman). 1996; 128:601-7
Resisting the urge to prescribe (Edwards). 1996;128:729-30
Eighth component of complement; *see* Complement 8
Electrocardiography
Cisapride-induced long QT interval (Lewin et al). 1996;128: 279-81 (CLO)
Electrolytes
Circadian variations of urinary electrolyte concentrations in preterm and term infants (Trotter et al). 1996;128:253-6
Elementary school children; *see* Child
Encopresis
Balloon defecation as a predictor of outcome in children with functional constipation and encopresis (Loening-Baucke). 1996;128:336-40
Endoscopy, gastrointestinal
Effect of omeprazole in the treatment of refractory acid-related diseases in childhood: endoscopic healing and twenty-four-hour intragastric acidity (Kato et al). 1996;128:415-21
Endotracheal intubation; *see* Intubation, intratracheal
Energy metabolism
Measuring resting energy expenditure in pediatrics (Salas-Salvadó and Martinez). 1996;128:587 (Letter)
Enoxaparin
Low-molecular-weight heparin in pediatric patients with thrombotic disease: a dose finding study (Massicotte et al). 1996; 128:313-8
Enteropathies, protein-losing; *see* Protein-losing enteropathies
Eosinophils
Hypereosinophilic syndrome with generalized myasthenia gravis (Ishida et al). 1996;128:369-72 (CLO)
Epilepsy
Effect of valproate on bone mineral density (Gillis et al). 1996; 128:441 (Letter)
Epilepsy, partial
Efficacy of gabapentin therapy in children with refractory partial seizures (Khurana et al). 1996;128:829-33
Epinephrine
Efficacy of epinephrine with salbutamol in treatment of acute bronchiolitis (Rusconi and Sideri) (Letter); (Klassen and Menon) (Reply). 1996;128:441-3
Epstein-Barr virus
Role of Epstein-Barr virus in tumor development (Yunis). 1996; 128:438 (Letter)
Equipment and supplies
The Beck Airway Air Flow Monitor as an aid for evaluation of endotracheal tube placement in neonatal patients (Cook and Moglia). 1996;128:568-70 (CLO)
Efficacy of the Flutter device for airway mucus clearance in patients with cystic fibrosis (Mahesh et al) (Letter); (Konstan et al) (Reply). 1996;128:165-6
Erythropoiesis
Effect of protein intake on erythropoiesis during erythropoietin treatment of anemia of prematurity (Brown and Shapiro). 1996;128:512-7
Serum erythropoietin levels during infancy: associations with erythropoiesis (Kling et al). 1996;128:791-6
Erythropoietin
Effect of protein intake on erythropoiesis during erythropoietin treatment of anemia of prematurity (Brown and Shapiro). 1996;128:512-7
Pharmacokinetics and effectiveness of recombinant erythropoietin administered to preterm infants by continuous infusion in total parenteral nutrition solution (Ohls et al). 1996;128:518-23
Serum erythropoietin levels during infancy: associations with erythropoiesis (Kling et al). 1996;128:791-6
Escherichia coli
Diarrhea in young children associated with *Escherichia coli* non-O157 organisms that produce Shiga-like toxin (Huppertz et al). 1996;128:341-6
Esophagitis, peptic
Effect of omeprazole in the treatment of refractory acid-related diseases in childhood: endoscopic healing and twenty-four-hour intragastric acidity (Kato et al). 1996;128:415-21
Ethics
Futile care in the pediatric intensive care unit: ethical and economic considerations (Tilford and Fiser). 1996;128:725-7 (Editor's column)
Use of minors as bone marrow donors: current attitude and management—a survey of 56 pediatric transplantation centers (Chan et al). 1996;128:644-8
Evoked potentials, somatosensory
Somatosensory evoked potentials: predictors of outcome in children with severe brain injury (Adams et al) (Letter); (Cox) (Reply). 1996;128:438-9
Exercise
Exercise-induced anaphylaxis related to specific foods (Policastro) (Letter); (Tilles et al) (Reply). 1996;128:724
Raising couch potatoes (little spuds and how they grew—and grew) (Balistreri). 1996;128:591 (Editor's column)
Extracorporeal membrane oxygenation
Effective hemodialysis and hemofiltration driven by an extracorporeal membrane oxygenation pump in infants with hyperammonemia (Summar et al). 1996;128:379-82 (CLO)
Extracorporeal membrane oxygenation as a bridge to definitive tracheal surgery in children (Goldman et al). 1996;128:386-8 (CLO)
Neutrophil and cytokine activation with neonatal extracorporeal membrane oxygenation (Fortenberry et al). 1996;128:670-8
Predictors of early childhood outcome in candidates for extracorporeal membrane oxygenation (Vaucher et al). 1996;128: 109-17
Extrapulmonary function; *see* Lung, physiology
Eye diseases
Acute rectus muscle palsy in children as a result of orbital myositis (Pollard). 1996;128:230-3

F

Factor V
Neonatal purpura fulminans in association with factor V R506Q mutation (Pipe et al). 1996;128:706-9 (CLO)
Thrombosis in otherwise well children with the factor V Leiden mutation (Sifontes et al). 1996;128:324-8
Familial diseases; *see* Hereditary diseases
Farber, Sidney
Sidney Farber (1903–1973) (Craig). 1996;128:160-2 (Profiles)
Fc receptors; *see* Receptors, Fc
Febrile children; *see* Fever
Febrile seizures; *see* Convulsions, febrile
Feeding methods
A prospective, randomized trial comparing continuous versus intermittent feeding methods in very low birth weight neonates (Silvestre et al). 1996;128:748-52
Fees and charges
Futile care in the pediatric intensive care unit: ethical and economic considerations (Tilford and Fiser). 1996;128:725-7 (Editor's column)
Physician and clinic charges for diagnosing growth hormone deficiency (Kirkland et al). 1996;128:S61-2 (Symposium)
Resource consumption and the extent of futile care among

Fees and charges—cont'd
patients in a pediatric intensive care unit setting (Sachdeva et al). 1996;128:742-7
Fetal blood
Macrosomic infants of nondiabetic mothers (Carter). 1996; 128:439-40 (Letter)
Persistence of fetal hemoglobin production after successful transplantation of cord blood stem cells in a patient with sickle cell anemia (Brichard et al). 1996;128:241-3 (CLO)
Fetal growth
Macrosomic infants of nondiabetic mothers (Carter). 1996; 128:439-40 (Letter)
Fetal growth retardation
Linear growth in response to growth hormone treatment in children with short stature associated with intrauterine growth retardation: the National Cooperative Growth Study experience (Chernausek et al). 1996;128:S22-7 (Symposium)
Fetal hemoglobin
Persistence of fetal hemoglobin production after successful transplantation of cord blood stem cells in a patient with sickle cell anemia (Brichard et al). 1996;128:241-3 (CLO)
Fetal macrosomia
Macrosomic infants of nondiabetic mothers (Carter). 1996;128: 439-40 (Letter)
Fetal monitoring
Pediatric echocardiography: current role and a review of technical advances (Rice et al). 1996;128:1-14
Fetus, drug effects
Extrapulmonary effects of antenatally administered steroids (Padbury et al). 1996;128:167-72
Fever
Furosemide-associated fever (Amir and Varsano). 1996;128: 163-4 (Letter)
A pilot study of outpatient management of febrile neutropenic children with cancer at low risk of bacteremia (Mustafa et al). 1996;128:847-9 (CLO)
Flow cytometry
Genotype-dependent variability in flow cytometric evaluation of reduced nicotinamide adenine dinucleotide phosphate oxidase function in patients with chronic granulomatous disease (Vowells et al). 1996;128:104-7 (CLO)
Fluid therapy
A double-blind clinical trial comparing World Health Organization oral rehydration solution with a reduced osmolarity solution containing equal amounts of sodium and glucose (Santosham et al). 1996;128:45-51
Flutter device; *see* Equipment and supplies
Focal bacterial nephritis; *see* Nephritis
Food hypersensitivity
Anemia, blueberry-muffin rash, and hepatomegaly in a newborn infant (Silver et al). 1996;128:579-86
Exercise-induced anaphylaxis related to specific foods (Policastro) (Letter); (Tilles et al) (Reply). 1996;128:724
Isolated rice intolerance: clinical and immunologic characteristics in four infants (Cavataio et al). 1996;128:558-60 (CLO)
Funnel chest
Cardiorespiratory function before and after corrective surgery in pectus excavatum (Quigley et al). 1996;128:638-43
Furosemide
Furosemide-associated fever (Amir and Varsano). 1996;128: 163-4 (Letter)
Futility of care; *see* Prognosis

G

Gabapentin
Efficacy of gabapentin therapy in children with refractory partial seizures (Khurana et al). 1996;128:829-33
Galactosemia
A prevalent mutation for galactosemia among black Americans (Lai et al). 1996;128:89-95
Gastric acid
Effect of omeprazole in the treatment of refractory acid-related diseases in childhood: endoscopic healing and twenty-four-hour intragastric acidity (Kato et al). 1996;128:415-21
Gastric emptying
Ultrasound measurement of gastric emptying time in patients with cystic fibrosis and effect of ranitidine on delayed gastric emptying (Cucchiara et al). 1996;128:485-8
Gastritis
Symptoms and *Helicobacter pylori* infection in children (Sferlazzas et al) (Letter); (Drumm and Gormally) (Reply). 1996; 128:588-9
Gastritis, hypertrophic
Ménétrier disease of childhood: role of cytomegalovirus and transforming growth factor alpha (Sferra et al). 1996;128:213-9
Gastrointestinal hemorrhage
Gastrointestinal hemorrhage complicating aspirin therapy in acute Kawasaki disease (Matsubara et al). 1996;128:701-3 (CLO)
Gastrostomy
Nutrition via gastrostomy tube in children with cancer (Hirsch) (Letter); (Aquino and Sandler) (Reply). 1996;128:164
Genetics
Depletion of mitochondrial deoxyribonucleic acid in a family with fatal neonatal liver disease (Bakker et al). 1996;128:683-7 (CLO)
Depletion of mitochondrial DNA in the liver of a patient with lactic acidemia and hypoketotic hypoglycemia (Maaswinkel-Mooij et al). 1996;128:679-83 (CLO)
Expanding spectrum of mitochondrial disorders (Sokol). 1996;128:597-9 (Editor's column)
Mild CF phenotype associated with T338I missense mutation (Padoan et al). 1996;128:721-2 (Letter)
Molecular cause of Hirschsprung disease (Proujansky). 1996; 128:720 (Letter)
Relationship between Fc receptor IIA polymorphism and infection in children with sickle cell disease (Norris et al). 1996; 128:813-9
Genital diseases
Herpes simplex virus type 2 infection associated with urinary retention in the absence of genital lesions (Gerber and Cromie). 1996;128:250-1 (CLO)
Genotype
Genotype-dependent variability in flow cytometric evaluation of reduced nicotinamide adenine dinucleotide phosphate oxidase function in patients with chronic granulomatous disease (Vowells et al). 1996;128:104-7 (CLO)
Glucose
Clinical heterogeneity in congenital sucrase-isomaltase deficiency (Treem). 1996;128:727-9 (Editor's column)
A double-blind clinical trial comparing World Health Organization oral rehydration solution with a reduced osmolarity solution containing equal amounts of sodium and glucose (Santosham et al). 1996;128:45-51
Glucose polymer as a cause of protracted diarrhea in infants with unsuspected congenital sucrase-isomaltase deficiency (Newton et al). 1996;128:753-6
Glucose phosphate dehydrogenase
Conjugated bilirubin in neonates with glucose-6-phosphate dehydrogenase deficiency (Kaplan et al). 1996;128:695-7 (CLO)
Pathophysiology of spontaneous neonatal bilirubinemia associated with glucose-6-phosphate dehydrogenase deficiency (Valaes) (Letter); (Seidman et al) (Reply). 1996;128:863-4
Glutaric acid
Acute pancreatitis in a patient with glutaric acidemia type I (Lemire et al). 1996;128:589-90 (Letter)
Glycine
Nonketotic hyperglycinemia: atypical clinical and biochemical manifestations (Steiner et al). 1996;128:243-6 (CLO)
Granulocyte colony-stimulating factor
Granulocyte colony-stimulating factor as a marker for bacterial infection in neonates (Kennon et al). 1996;128:765-9

Granulocyte colony-stimulating factor—cont'd
Reference intervals for serum granulocyte colony-stimulating factor levels in children (Ishiguro et al). 1996;128:208-12
A two-year follow-up of neonates with presumed sepsis treated with recombinant human granulocyte colony-stimulating factor during the first week of life (Rosenthal et al). 1996;128:135-7 (CLO)
Granuloma, plasma cell, orbital
Acute rectus muscle palsy in children as a result of orbital myositis (Pollard). 1996;128:230-3
Granulomatous disease, chronic
Genotype-dependent variability in flow cytometric evaluation of reduced nicotinamide adenine dinucleotide phosphate oxidase function in patients with chronic granulomatous disease (Vowells et al). 1996;128:104-7 (CLO)
Graves disease
Prediction of neonatal hyperthyroidism in infants born to mothers with Graves disease (Skuza et al). 1996;128:264-7
Growth
Natural history of somatic growth in infants born to women infected by human immunodeficiency virus (Moye et al). 1996; 128:58-69
A prospective, randomized trial comparing continuous versus intermittent feeding methods in very low birth weight neonates (Silvestre et al). 1996;128:748-52
Thyroid abnormalities in children infected with human immunodeficiency virus (Hirschfeld et al). 1996;128:70-4
Growth disorders
Assays for insulin-like growth factors and their binding proteins: practicalities and pitfalls (Rosenfeld and Gargosky). 1996; 128:S52-7 (Symposium)
Brain tumor recurrence in children treated with growth hormone: the National Cooperative Growth Study experience (Moshang et al). 1996;128:S4-7 (Symposium)
Growth hormone deficiency in adults: characteristics and response to GH replacement (Lieberman and Hoffman). 1996; 128:S58-60 (Symposium)
Growth hormone measurements versus auxology in treatment decisions: the Australian experience (Werther). 1996;128: S47-51 (Symposium)
Growth hormone treatment of children with myelomeningocele (Rotenstein and Breen). 1996;128:S28-31 (Symposium)
Growth hormone treatment in Noonan syndrome: the National Cooperative Growth Study experience (Romano et al). 1996; 128:S18-21 (Symposium)
Linear growth in response to growth hormone treatment in children with short stature associated with intrauterine growth retardation: the National Cooperative Growth Study experience (Chernausek et al). 1996;128:S22-7 (Symposium)
National Cooperative Growth Study substudy II: Do growth hormone levels from serial sampling add important diagnostic information? (Rogol et al). 1996;128:S42-6 (Symposium)
Overview of the National Cooperative Growth Study substudy of serial growth hormone measurements (Blethen et al). 1996;128: S38-41 (Symposium)
Physician and clinic charges for diagnosing growth hormone deficiency (Kirkland et al). 1996;128:S61-2 (Symposium)
Physiology of growth hormone secretion during sleep (Van Cauter and Plat). 1996;128:S32-7 (Symposium)
Response to growth hormone in children with chondrodysplasia (Key and Gross). 1996;128:S14-7 (Symposium)
Safety of human growth hormone therapy: current topics (Allen). 1996;128:S8-13 (Symposium)
Utility of the National Cooperative Growth Study database for safety reporting (Graves and National Cooperative Growth Study). 1996;128:S1-3 (Symposium)
Growth hormone, pituitary; *see* Somatotropin

H

Haemophilus influenzae
Comparison of five different vaccination schedules with *Haemophilus influenzae* type b–tetanus toxoid conjugate vaccine (Kurikka et al). 1996;128:524-30
Immunity to *Haemophilus influenzae* type b polysaccharide capsule after vaccination with the complete series of oligosaccharide CRM_{197} conjugate vaccine in infants with human immunodeficiency virus infection (Peters and Sood). 1996;128:363-5 (CLO)
Invasive *Haemophilus influenzae* type b infection in a child with familial deficiency of the beta subunit of the eighth component of complement (Pallares et al). 1996;128:102-3 (CLO)
Hair
Treatment of atrichia pubis in adolescent girls with pituitary dwarfism (Dacou-Voutetakis and Kakourou). 1996;128:284-5 (CLO)
Head
Subarachnoid fluid collections: a cause of macrocrania in preterm infants (Al-Saedi et al). 1996;128:234-6 (CLO)
Hearing loss, partial
Long-term sequelae of hearing impairment in congenital hypothyroidism (Rovet et al). 1996;128:776-83
Screening infants for hearing impairment (Vohr and Maxon). 1996;128:710-4
Heart
Cardiorespiratory function before and after corrective surgery in pectus excavatum (Quigley et al). 1996;128:638-43
Right atrial thrombi in children with cancer and indwelling catheters (Korones et al). 1996;128:841-6
Heart defects, congenital
Natural history of Alström syndrome in early childhood: onset with dilated cardiomyopathy (Michaud et al). 1996;128:225-9
Pediatric echocardiography: current role and a review of technical advances (Rice et al). 1996;128:1-14
Heart function tests
Cardiomyopathy related to acquired immunodeficiency syndrome in children (Steinherz) (Letter); (Domanski et al) (Reply). 1996;128:721
Heart injuries
Recognition and management of nonpenetrating cardiac trauma in children (Bromberg et al). 1996;128:536-41
Helicobacter pylori
Symptoms and *Helicobacter pylori* infection in children (Sferlazzas et al) (Letter); (Drumm and Gormally) (Reply). 1996; 128:588-9
Hemangioma
Congenital hemangioma: evidence of accelerated involution (Boon et al). 1996;128:329-35
Treatment of hemangiomas of infants with high doses of prednisone (Sadan and Wolach). 1996;128:141-6
Hematologic tests
Effect of number of blood cultures and volume of blood on detection of bacteremia in children (Isaacman et al). 1996;128: 190-5
Hematoma, epidural
Spinal extradural hematoma in an infant with hemophilia A: an unusual presentation of a rare complication (Hutt et al). 1996; 128:704-6 (CLO)
Hemodialysis
Effective hemodialysis and hemofiltration driven by an extracorporeal membrane oxygenation pump in infants with hyperammonemia (Summar et al). 1996;128:379-82 (CLO)
Thyroid function and serum thyroid binding proteins in prepubertal and pubertal children with chronic renal insufficiency receiving conservative treatment, undergoing hemodialysis, or receiving care after renal transplantation (Castellano et al). 1996;128:784-90
Hemofiltration
Effective hemodialysis and hemofiltration driven by an extracorporeal membrane oxygenation pump in infants with hyperammonemia (Summar et al). 1996;128:379-82 (CLO)
Hemolysis
Hemolysis after treatment with ceftriaxone (Scimeca et al). 1996;128:163 (Letter)

Hemolytic-uremic syndrome
Atypical hemolytic-uremic syndrome: a comparison with postdiarrheal disease (Siegler et al). 1996;128:505-11
Hemophilia
Spinal extradural hematoma in an infant with hemophilia A: an unusual presentation of a rare complication (Hutt et al). 1996;128:704-6 (CLO)
Stress and incidence of bleeding in children and adolescents with hemophilia (Perrin et al). 1996;128:82-8
Hemorrhage
Gastrointestinal hemorrhage complicating aspirin therapy in acute Kawasaki disease (Matsubara et al). 1996;128:701-3 (CLO)
Stress and incidence of bleeding in children and adolescents with hemophilia (Perrin et al). 1996;128:82-8
Hepatolenticular degeneration
Successful medical treatment of severely decompensated Wilson disease (Silva et al). 1996;128:285-7 (CLO)
Hepatomegaly
Anemia, blueberry-muffin rash, and hepatomegaly in a newborn infant (Silver et al). 1996;128:579-86
Hereditary diseases
Invasive *Haemophilus influenzae* type b infection in a child with familial deficiency of the beta subunit of the eighth component of complement (Pallares et al). 1996;128:102-3 (CLO)
Pleuropulmonary blastoma: a marker for familial disease (Priest et al). 1996;128:220-4
Herpes genitalis
Herpes simplex virus type 2 infection associated with urinary retention in the absence of genital lesions (Gerber and Cromie). 1996;128:250-1 (CLO)
Herpes zoster
Herpes zoster infection after bone marrow transplantation in children (Kawasaki et al). 1996;128:353-6
Heterogeneity; *see* Population
Hirschsprung disease
Molecular cause of Hirschsprung disease (Proujansky). 1996;128:720 (Letter)
HIV
Cardiomyopathy related to acquired immunodeficiency syndrome in children (Steinherz) (Letter); (Domanski et al) (Reply). 1996;128:721
Immunity to *Haemophilus influenzae* type b polysaccharide capsule after vaccination with the complete series of oligosaccharide CRM_{197} conjugate vaccine in infants with human immunodeficiency virus infection (Peters and Sood). 1996;128:363-5 (CLO)
Natural history of somatic growth in infants born to women infected by human immunodeficiency virus (Moye et al). 1996;128:58-69
Thyroid abnormalities in children infected with human immunodeficiency virus (Hirschfeld et al). 1996;128:70-4
HIV-1
Frequent recurrence and persistence of varicella-zoster virus infections in children infected with human immunodeficiency virus type 1 (von Seidlein et al). 1996;128:52-7
Hodes, Horace L
Horace L. Hodes (1907–1989) (Hirschhorn). 1996;128:436-7 (Profiles)
Hospitalization
Hospitalization as a measure of morbidity among very low birth weight infants with chronic lung disease (Furman et al). 1996;128:447-52
Increased risk of reported pertussis and hospitalization associated with pertussis in low birth weight children (Langkamp and Davis). 1996;128:654-9
House dust mites; *see* Mites
Human immunodeficiency virus; *see* HIV
Hydrocortisone
Adrenocortical function in the very low birth weight infant: improved testing sensitivity and association with neonatal outcome (Korte et al). 1996;128:257-63
Hydrogen-ion concentration
Depletion of mitochondrial DNA in the liver of a patient with lactic acidemia and hypoketotic hypoglycemia (Maaswinkel-Mooij et al). 1996;128:679-83 (CLO)
Hydroxyurea
Hydroxyurea therapy in children severely affected with sickle cell disease (Scott et al). 1996;128:820-8
Hyperammonemia; *see* Ammonia
Hyperbilirubinemia
Pathophysiology of spontaneous neonatal bilirubinemia associated with glucose-6-phosphate dehydrogenase deficiency (Valaes) (Letter); (Seidman et al) (Reply). 1996;128:863-4
Hyperchloriduria; *see* Chlorides
Hypereosinophilia; *see* Eosinophils
Hyperkalemia
Severe hyperchloriduria-hyperkaliuria: A new congenital renal tubular abnormality? (Meyburg et al). 1996;128:376-8 (CLO)
Hypersensitivity
Current perspectives on latex allergy (Landwehr and Boguniewicz). 1996;128:305-12
Hyperthyroidism
Prediction of neonatal hyperthyrcidism in infants born to mothers with Graves disease (Skuza et al). 1996;128:264-7
Hypnotics and sedatives
Comparison of chloral hydrate and midazolam for sedation of neonates for neuroimaging studies (McCarver-May et al). 1996;128:573-6 (CLO)
Decreased ventilatory response to hypoxia in sedated newborn piglets prenatally exposed to cocaine (Suguihara et al). 1996;128:389-95
Hypoglycemia
Depletion of mitochondrial DNA in the liver of a patient with lactic acidemia and hypoketotic hypoglycemia (Maaswinkel-Mooij et al). 1996;128:679-83 (CLO)
Hyponatremia
Hyponatremia caused by a reset osmostat in a neonate with cleft lip and palate and panhypopituitarism (Thiagarajan et al). 1996;128:561-3 (CLO)
Hypoparathyroidism
Transient congenital hypoparathyroidism: resolution and recurrence in chromosome 22q11 deletion (Greig et al). 1996;128:563-7 (CLO)
Hypopituitarism
Hyponatremia caused by a reset osmostat in a neonate with cleft lip and palate and panhypopituitarism (Thiagarajan et al). 1996;128:561-3 (CLO)
Nasal pyriform aperture stenosis and absence of the anterior pituitary gland: report of two cases (Beregszàszi et al). 1996;128:858-61 (CLO)
Hypothyroidism
Long-term sequelae of hearing impairment in congenital hypothyroidism (Rovet et al). 1996;128:776-83
Thyroid function in very low birth weight infants: effects on neonatal hypothyroidism screening (Frank et al). 1996;128:548-54
Hypotonic dehydration; *see* Dehydration
Hypoxia; *see* Anoxia

I

Idiopathic thrombocytopenic purpura; *see* Purpura, thrombocytopenic, idiopathic
IgE
Early detection of specific IgE antibody against house dust mite in children at risk of allergic disease (Sasai et al). 1996;128:834-40
IgG
Enteropathy and IgG subclass deficiency (Garty). 1996;128:722-3 (Letter)

Immune globulin; *see* Immunoglobulins, intravenous
Immunity
Immunity to *Haemophilus influenzae* type b polysaccharide capsule after vaccination with complete series of oligosaccharide CRM_{197} conjugate vaccine in infants with human immunodeficiency virus infection (Peters and Sood). 1996;128:363-5 (CLO)
Immunization, passive
Neonatal thrombocytopenia caused by passive transfer of anti-PL^{A1} antibody by blood transfusion (Marzich et al). 1996; 128:137-9 (CLO)
Immunogenicity
Immunogenicity of heptavalent pneumococcal conjugate vaccine in infants (Anderson et al). 1996;128:649-53
Immunoglobulins, intravenous
Differences in immunoglobulin preparations and outcome of Kawasaki disease (Yavuz and Özel). 1996;128:719-20 (Letter)
Treatment of immune globulin–resistant Kawasaki disease with pulsed doses of corticosteroids (Wright et al). 1996;128:146-9 (CLO)
Indomethacin
Prophylactic indomethacin therapy in the first twenty-four hours of life for the prevention of patent ductus arteriosus in preterm infants treated prophylactically with surfactant in the delivery room (Couser et al). 1996;128:631-7
Recommendations for the postnatal use of indomethacin: an analysis of four separate treatment strategies (Clyman). 1996; 128:601-7 (Editor's column)
Reopening of the ductus arteriosus after closure with indomethacin: importance of sustained effective indomethacin serum concentrations (Gal et al). 1996;128:719 (Letter)
Severe hyperchloriduria-hyperkaliuria: A new congenital renal tubular abnormality? (Meyburg et al). 1996;128:376-8 (CLO)
Indonesia
Impact of neonatal vitamin A supplementation on infant morbidity and mortality (Humphrey et al). 1996;128:489-96
Indwelling catheters; *see* Catheters, indwelling
Infant
Face-straight-down and face-near-straight-down positions in healthy, prone-sleeping infants (Waters et al). 1996;128:616-25
Immunogenicity of heptavalent pneumococcal conjugate vaccine in infants (Anderson et al). 1996;128:649-53
Isolated rice intolerance: clinical and immunologic characteristics in four infants (Cavataio et al). 1996;128:558-60 (CLO)
Natural history of somatic growth in infants born to women infected by human immunodeficiency virus (Moye et al). 1996;128:58-69
Prone sleeping in healthy infants and victims of sudden infant death syndrome (Hunt). 1996;128:594-6 (Editor's column)
Treatment of hemangiomas of infants with high doses of prednisone (Sadan and Wolach). 1996;128:141-6
Infant, diseases
Spinal extradural hematoma in an infant with hemophilia A: an unusual presentation of a rare complication (Hutt et al). 1996;128:704-6 (CLO)
Infant, low birth weight
Adrenocortical function in the very low birth weight infant: improved testing sensitivity and association with neonatal outcome (Korte et al). 1996;128:257-63
Hospitalization as a measure of morbidity among very low birth weight infants with chronic lung disease (Furman et al). 1996; 128:447-52
Increased risk of reported pertussis and hospitalization associated with pertussis in low birth weight children (Langkamp and Davis). 1996;128:654-9
Low birth weight and morbidity from diarrhea and respiratory infection in northeast Brazil (Lira et al). 1996;128:497-504
Prenatal and perinatal factors and cerebral palsy in very low birth weight infants (Grether et al). 1996;128:407-14
A prospective, randomized trial comparing continuous versus intermittent feeding methods in very low birth weight neonates (Silvestre et al). 1996;128:748-52
Thyroid function in very low birth weight infants: effects on neonatal hypothyroidism screening (Frank et al). 1996;128: 548-54
Infant, newborn
Adrenocortical function in the very low birth weight infant: improved testing sensitivity and association with neonatal outcome (Korte et al). 1996;128:257-63
The Beck Airway Air Flow Monitor as an aid for evaluation of endotracheal tube placement in neonatal patients (Cook and Moglia). 1996;128:568-70 (CLO)
Choledocholithiasis in a premature neonate (Ishitani et al). 1996;128:853-5 (CLO)
Comparison of chloral hydrate and midazolam for sedation of neonates for neuroimaging studies (McCarver-May et al). 1996;128:573-6 (CLO)
Decreased ventilatory response to hypoxia in sedated newborn piglets prenatally exposed to cocaine (Suguihara et al). 1996; 128:389-95
Furosemide-associated fever (Amir and Varsano). 1996;128: 163-4 (Letter)
Granulocyte colony-stimulating factor as a marker for bacterial infection in neonates (Kennon et al). 1996;128:765-9
Impact of neonatal vitamin A supplementation on infant morbidity and mortality (Humphrey et al). 1996;128:489-96
Increased blood pressure in neonates and infants whose mothers smoked during pregnancy (Beratis et al). 1996;128:806-12
Procalcitonin as a marker for the early diagnosis of neonatal infection (Gendrel et al). 1996;128:570-3 (CLO)
Production of pulmonary vasodilation by tolazoline, independent of nitric oxide production in neonatal lambs (Curtis et al). 1996;128:118-24
A prospective, randomized trial comparing continuous versus intermittent feeding methods in very low birth weight neonates (Silvestre et al). 1996;128:748-52
Reference intervals for serum granulocyte colony-stimulating factor levels in children (Ishiguro et al). 1996;128:208-12
Serum erythropoietin levels during infancy: associations with erythropoiesis (Kling et al). 1996;128:791-6
Thyroid function in very low birth weight infants: effects on neonatal hypothyroidism screening (Frank et al). 1996;128: 548-54
Infant, newborn, diseases
Anemia, blueberry-muffin rash, and hepatomegaly in a newborn infant (Silver et al). 1996;128:579-86
Conjugated bilirubin in neonates with glucose-6-phosphate dehydrogenase deficiency (Kaplan et al). 1996;128:695-7 (CLO)
Depletion of mitochondrial deoxyribonucleic acid in a family with fatal neonatal liver disease (Bakker et al). 1996;128:683-7 (CLO)
Hyponatremia caused by a reset osmostat in a neonate with cleft lip and palate and panhypopituitarism (Thiagarajan et al). 1996;128:561-3 (CLO)
Lumbar puncture in the evaluation of possible asymptomatic congenital syphilis in neonates (Beeram et al). 1996;128:125-9
A multicenter randomized, masked comparison trial of natural versus synthetic surfactant for the treatment of respiratory distress syndrome (Hudak et al). 1996;128:396-406
Neonatal purpura fulminans in association with factor V R506Q mutation (Pipe et al). 1996;128:706-9 (CLO)
Neonatal thrombocytopenia caused by passive transfer of anti-PL^{A1} antibody by blood transfusion (Marzich et al). 1996; 128:137-9 (CLO)
Neutrophil and cytokine activation with neonatal extracorporeal membrane oxygenation (Fortenberry et al). 1996;128:670-8
Pathophysiology of spontaneous neonatal bilirubinemia associated with glucose-6-phosphate dehydrogenase deficiency (Valaes) (Letter); (Seidman et al) (Reply). 1996;128:863-4
Possible risks of early discharge of neonates from a neonatal intensive care unit (Möller et al) (Letter); (Grylack) (Letter); (Kotagal and Perlstein) (Reply). 1996;128:443-5

Infant, newborn, diseases—cont'd
Prediction of neonatal hyperthyroidism in infants born to mothers with Graves disease (Skuza et al). 1996;128:264-7
Randomized multicenter trial comparing synchronized and conventional intermittent mandatory ventilation in neonates (Bernstein et al). 1996;128:453-63
A two-year follow-up of neonates with presumed sepsis treated with recombinant human granulocyte colony-stimulating factor during the first week of life (Rosenthal et al). 1996;128:135-7 (CLO)
Ultralente insulin treatment of transient neonatal diabetes mellitus (Mitamura et al). 1996;128:268-70 (CLO)
Usefulness of soluble interleukin-2 receptor specificity (Wyman and Engle) (Letter); (Spear et al) (Reply). 1996;128:445-6
Infant, premature
Choledocholithiasis in a premature neonate (Ishitani et al). 1996;128:853-5 (CLO)
Circadian variations of urinary electrolyte concentrations in preterm and term infants (Trotter et al). 1996;128:253-6
Effect of parenteral amino acids on leucine and urea kinetics in preterm infants (Battista et al). 1996;128:130-4
Macroglossia: more than meets the eye (Scheuerle). 1996;128:865 (Letter)
Prophylactic indomethacin therapy in the first twenty-four hours of life for the prevention of patent ductus arteriosus in preterm infants treated prophylactically with surfactant in the delivery room (Couser et al). 1996;128:631-7
Subarachnoid fluid collections: a cause of macrocrania in preterm infants (Al-Saedi et al). 1996;128:234-6 (CLO)
Topical ointment therapy benefits premature infants (Nopper et al). 1996;128:660-9
Infant, premature, diseases
Effect of protein intake on erythropoiesis during erythropoietin treatment of anemia of prematurity (Brown and Shapiro). 1996;128:512-7
Increase in the concentration of transforming growth factor beta-1 in bronchoalveolar lavage fluid before development of chronic lung disease of prematurity (Kotecha et al). 1996;128:464-9
Influence of infection on patent ductus arteriosus and chronic lung disease in premature infants weighing 1000 grams or less (Gonzalez et al). 1996;128:470-8
Pharmacokinetics and effectiveness of recombinant erythropoietin administered to preterm infants by continuous infusion in total parenteral nutrition solution (Ohls et al). 1996;128:518-23
Infant food
Clinical heterogeneity in congenital sucrase-isomaltase deficiency (Treem). 1996;128:727-9 (Editor's column)
Glucose polymer as a cause of protracted diarrhea in infants with unsuspected congenital sucrase-isomaltase deficiency (Newton et al). 1996;128:753-6
Infant morbidity; *see* Morbidity
Infant mortality
Depletion of mitochondrial deoxyribonucleic acid in a family with fatal neonatal liver disease (Bakker et al). 1996;128:683-7 (CLO)
Impact of neonatal vitamin A supplementation on infant morbidity and mortality (Humphrey et al). 1996;128:489-96
Infection
Cytomegalovirus reinfection in young children (Bale et al). 1996;128:347-52
Focal bacterial nephritis (lobar nephronia) in children (Klar et al). 1996;128:850-3 (CLO)
Granulocyte colony-stimulating factor as a marker for bacterial infection in neonates (Kennon et al). 1996;128:765-9
Immunity to *Haemophilus influenzae* type b polysaccharide capsule after vaccination with the complete series of oligosaccharide CRM_{197} conjugate vaccine in infants with human immunodeficiency virus infection (Peters and Sood). 1996;128:363-5 (CLO)
Influence of infection on patent ductus arteriosus and chronic lung disease in premature infants weighing 1000 grams or less (Gonzalez et al). 1996;128:470-8
Microbial dynamics of persistent purulent otitis media in children (Brook and Frazier). 1996;128:237-40 (CLO)
Procalcitonin as a marker for the early diagnosis of neonatal infection (Gendrel et al). 1996;128:570-3 (CLO)
Relationship between Fc receptor IIA polymorphism and infection in children with sickle cell disease (Norris et al). 1996;128:813-9
Resisting the urge to prescribe (Edwards). 1996;128:729-30 (Editor's column)
Symptoms and *Helicobacter pylori* infection in children (Sferlazzas et al) (Letter); (Drumm and Gormally) (Reply). 1996;128:588-9
Infusions, intravenous
Failure of pulse intravenous methylprednisolone treatment in juvenile dermatomyositis (Lang and Dooley). 1996;128:429-32
Pharmacokinetics and effectiveness of recombinant erythropoietin administered to preterm infants by continuous infusion in total parenteral nutrition solution (Ohls et al). 1996;128:518-23
Inhaled administration; *see* Administration, inhalation
Insulin
Ultralente insulin treatment of transient neonatal diabetes mellitus (Mitamura et al). 1996;128:268-70 (CLO)
Insulin-like growth factors; *see* Somatomedins
Intensive care units, neonatal
Possible risks of early discharge of neonates from a neonatal intensive care unit (Möller et al) (Letter); (Grylack) (Letter); (Kotagal and Perlstein) (Reply). 1996;128:443-5
Intensive care units, pediatric
Futile care in the pediatric intensive care unit: ethical and economic considerations (Tilford and Fiser). 1996;128:725-7 (Editor's column)
Resource consumption and the extent of futile care among patients in a pediatric intensive care unit setting (Sachdeva et al). 1996;128:742-7
Variability in duration of stay in pediatric intensive care units: a multiinstitutional study (Ruttimann and Pollack). 1996;128:35-44
Interleukin-2
Usefulness of soluble interleukin-2 receptor specificity (Wyman and Engle) (Letter); (Spear et al) (Reply). 1996;128:445-6
Interleukin-5
Production of interleukin-5 and the suppressive effect of cyclosporin A in childhood severe atopic dermatitis (Ishii et al). 1996;128:152-5 (CLO)
Intermittent feeding method; *see* Feeding methods
Intestine, small
Small-bowel bacterial overgrowth in children with chronic diarrhea, abdominal pain, or both (de Boissieu et al). 1996;128:203-7
Intestines
Ultrasound measurement of gastric emptying time in patients with cystic fibrosis and effect of ranitidine on delayed gastric emptying (Cucchiara et al). 1996;128:485-8
Intolerance, rice; *see* Food hypersensitivity
Intrauterine growth retardation; *see* Fetal growth retardation
Intravenous administration; *see* Infusions, intravenous
Intubation, intratracheal
The Beck Airway Air Flow Monitor as an aid for evaluation of endotracheal tube placement in neonatal patients (Cook and Moglia). 1996;128:568-70 (CLO)
Invasive monitoring; *see* Monitoring, physiologic

J

Japan
Mortality rates among patients with a history of Kawasaki disease in Japan (Nakamura et al). 1996;128:75-81

Jejunal diseases
Recurrent necrotizing jejunitis in a child (Taufiq et al). 1996;128:246-9 (CLO)
Journal of Pediatrics
Building on a tradition (Balistreri). 1996;128:97-8 (Editor's column)
Juvenile rheumatoid arthritis; *see* Arthritis, juvenile rheumatoid

K

Kawasaki disease; *see* Mucocutaneous lymph node syndrome
Kidney, physiology
Effects of recombinant human growth hormone on renal function in children with renal transplants (Maxwell et al). 1996;128:177-83
Kidney diseases
Focal bacterial nephritis (lobar nephronia) in children (Klar et al). 1996;128:850-3 (CLO)
Increased urinary nitrite excretion in children with minimal change nephrotic syndrome (Trachtman et al). 1996;128:173-6
Pneumococcal polysaccharide vaccine in children with chronic renal disease: a prospective study of antibody response and duration (Furth et al). 1996;128:99-101 (CLO)
Severe hyperchloriduria-hyperkaliuria: A new congenital renal tubular abnormality? (Meyburg et al). 1996;128:376-8 (CLO)
Kidney failure
Thyroid function and serum thyroid binding proteins in prepubertal and pubertal children with chronic renal insufficiency receiving conservative treatment, undergoing hemodialysis, or receiving care after renal transplantation (Castellano et al). 1996;128:784-90
Kidney transplantation
Effects of recombinant human growth hormone on renal function in children with renal transplants (Maxwell et al). 1996;128:177-83
Thyroid function and serum thyroid binding proteins in prepubertal and pubertal children with chronic renal insufficiency receiving conservative treatment, undergoing hemodialysis, or receiving care after renal transplantation (Castellano et al). 1996;128:784-90
Kinetics
Effect of parenteral amino acids on leucine and urea kinetics in preterm infants (Battista et al). 1996;128:130-4

L

Lactates
Depletion of mitochondrial DNA in the liver of a patient with lactic acidemia and hypoketotic hypoglycemia (Maaswinkel-Mooij et al). 1996;128:679-83 (CLO)
Latex
Current perspectives on latex allergy (Landwehr and Boguniewicz). 1996;128:305-12
Leiden mutation; *see* Mutation
Leiomyosarcoma
Role of Epstein-Barr virus in tumor development (Yunis). 1996;128:438 (Letter)
Length of stay
Variability in duration of stay in pediatric intensive care units: a multiinstitutional study (Ruttimann and Pollack). 1996;128:35-44
Letters
Letters. 1996;128:163-6, 302-4, 438-46, 587-90, 719-24, 862-6
Leucine
Effect of parenteral amino acids on leucine and urea kinetics in preterm infants (Battista et al). 1996;128:130-4
Leukemia, lymphocytic
Role of Epstein-Barr virus in tumor development (Yunis). 1996;128:438 (Letter)
Leukocytes
Molecular cause of Hirschsprung disease (Proujansky). 1996;128:720 (Letter)
Liver diseases
Depletion of mitochondrial deoxyribonucleic acid in a family with fatal neonatal liver disease (Bakker et al). 1996;128:683-7 (CLO)
Depletion of mitochondrial DNA in the liver of a patient with lactic acidemia and hypoketotic hypoglycemia (Maaswinkel-Mooij et al). 1996;128:679-83 (CLO)
Liver biopsy findings in patients with juvenile rheumatoid arthritis receiving long-term, weekly methotrexate therapy (Kugathasan et al). 1996;128:149-51 (CLO)
Successful medical treatment of severely decompensated Wilson disease (Silva et al). 1996;128:285-7 (CLO)
Lobar nephronia; *see* Nephritis
Low birth weight infant; *see* Infant, low birth weight
Low-molecular-weight heparin; *see* Enoxaparin
Lumbar puncture; *see* Spinal puncture
Lung, physiology
Cardiorespiratory function before and after corrective surgery in pectus excavatum (Quigley et al). 1996;128:638-43
Extrapulmonary effects of antenatally administered steroids (Padbury et al). 1996;128:167-72
Pilot study to assess the effect of inhaled corticosteroids on lung function in patients with cystic fibrosis (Nikolaizik and Schöni). 1996;128:271-4
Production of pulmonary vasodilation by tolazoline, independent of nitric oxide production in neonatal lambs (Curtis et al). 1996;128:118-24
Lung diseases
Hospitalization as a measure of morbidity among very low birth weight infants with chronic lung disease (Furman et al). 1996;128:447-52
Increase in the concentration of transforming growth factor beta-1 in bronchoalveolar lavage fluid before development of chronic lung disease of prematurity (Kotecha et al). 1996;128:464-9
Influence of infection on patent ductus arteriosus and chronic lung disease in premature infants weighing 1000 grams or less (Gonzalez et al). 1996;128:470-8
Lung neoplasms
Pleuropulmonary blastoma: a marker for familial disease (Priest et al). 1996;128:220-4
Lupus coagulation inhibitor
Lupus anticoagulant and protein S deficiency in children with postvaricella purpura fulminans or thrombosis (Manco-Johnson et al). 1996;128:319-23
Lymphadenitis
Treatment of nontuberculous mycobacterial lymphadenitis with clarithromycin plus rifabutin (Berger et al). 1996;128:383-6 (CLO)

M

Macrocrania; *see* Head
Macroglossia
Macroglossia: more than meets the eye (Scheuerle). 1996;128:865 (Letter)
Macrophage activation
Macrophage activation syndrome in systemic juvenile rheumatoid arthritis successfully treated with cyclosporine (Ravelli et al). 1996;128:275-8 (CLO)
Macrosomia, infant; *see* Fetal macrosomia
Magnetic resonance imaging
Comparison of chloral hydrate and midazolam for sedation of neonates for neuroimaging studies (McCarver-May et al). 1996;128:573-6 (CLO)
Maternal phenylketonuria: magnetic resonance imaging of the brain in offspring (Levy et al). 1996;128:770-5

Magnetic resonance imaging—cont'd
Neuroimaging studies in children with developmental delay (Cunningham) (Letter); (Majnemer and Shevell) (Reply). 1996;128:302
Reversibility of cerebral ventricular enlargement in anorexia nervosa, demonstrated by quantitative magnetic resonance imaging (Golden et al). 1996;128:296-301
Mandatory ventilation; *see* Respiration, artificial
Masks
Deposition pattern of radiolabeled salbutamol inhaled from a metered-dose inhaler by means of a spacer with mask in young children with airway obstruction (Tal et al). 1996;128:479-84
Maternal behavior
Increased blood pressure in neonates and infants whose mothers smoked during pregnancy (Beratis et al). 1996;128:806-12
Maternal phenylketonuria; *see* Phenylketonuria, maternal
Ménétrier disease; *see* Gastritis, hypertrophic
Meningococcal infections
Total and functional antibody response to a quadrivalent meningococcal polysaccharide vaccine among children (King et al). 1996;128:196-202
Meningomyelocele
Growth hormone treatment of children with myelomeningocele (Rotenstein and Breen). 1996;128:S28-31 (Symposium)
Metabolism, inborn errors
Acute pancreatitis in a patient with glutaric acidemia type I (Lemire et al). 1996;128:589-90 (Letter)
Methimazole
Effect of methimazole treatment of maternal thyrotoxicosis on thyroid function in breast-feeding infants (Azizi). 1996;128:855-7 (CLO)
Methotrexate
Accelerated nodulosis during methotrexate therapy for juvenile rheumatoid arthritis (Muzaffer et al). 1996;128:698-700 (CLO)
Liver biopsy findings in patients with juvenile rheumatoid arthritis receiving long-term, weekly methotrexate therapy (Kugathasan et al). 1996;128:149-51 (CLO)
Macrophage activation syndrome in systemic juvenile rheumatoid arthritis successfully treated with cyclosporine (Ravelli et al). 1996;128:275-8 (CLO)
Methylprednisolone
Failure of pulse intravenous methylprednisolone treatment in juvenile dermatomyositis (Lang and Dooley). 1996;128:429-32
Microbial invasion; *see* Infection
Microsomes
Steroid-resistant chronic urticaria associated with anti-thyroid microsomal antibodies in a nine-year-old boy (Dreyfus et al). 1996;128:576-8 (CLO)
Midazolam
Comparison of chloral hydrate and midazolam for sedation of neonates for neuroimaging studies (McCarver-May et al). 1996;128:573-6 (CLO)
Minimal change nephrotic syndrome; *see* Nephrosis, lipoid
Minors; *see* Adolescence
Mites
Early detection of specific IgE antibody against house dust mite in children at risk of allergic disease (Sasai et al). 1996;128:834-40
Mitochondrial DNA; *see* DNA, mitochondrial
Monitoring, physiologic
Invasive monitoring in infants with respiratory syncytial virus infection (Willson et al). 1996;128:357-62
Morbidity
Hospitalization as a measure of morbidity among very low birth weight infants with chronic lung disease (Furman et al). 1996;128:447-52
Impact of neonatal vitamin A supplementation on infant morbidity and mortality (Humphrey et al). 1996;128:489-96
Low birth weight and morbidity from diarrhea and respiratory infection in northeast Brazil (Lira et al). 1996;128:497-504
Mortality
Mortality rates among patients with a history of Kawasaki disease in Japan (Nakamura et al). 1996;128:75-81
Mucocutaneous lymph node syndrome
Differences in immunoglobulin preparations and outcome of Kawasaki disease (Yavuz and Özel). 1996;128:719-20 (Letter)
Gastrointestinal hemorrhage complicating aspirin therapy in acute Kawasaki disease (Matsubara et al). 1996;128:701-3 (CLO)
Mortality rates among patients with a history of Kawasaki disease in Japan (Nakamura et al). 1996;128:75-81
Reiter syndrome initially misdiagnosed as Kawasaki disease (Bauman et al). 1996;128:366-9 (CLO)
Treatment of immune globulin–resistant Kawasaki disease with pulsed doses of corticosteroids (Wright et al). 1996;128:146-9 (CLO)
Mucus
Efficacy of the Flutter device for airway mucus clearance in patients with cystic fibrosis (Mahesh et al) (Letter); (Konstan et al) (Reply). 1996;128:165-6
Mutation
Mild CF phenotype associated with T338I missense mutation (Padoan et al). 1996;128:721-2 (Letter)
Neonatal purpura fulminans in association with factor V R506Q mutation (Pipe et al). 1996;128:706-9 (CLO)
A prevalent mutation for galactosemia among black Americans (Lai et al). 1996;128:89-95
Thrombosis in otherwise well children with the factor V Leiden mutation (Sifontes et al). 1996;128:324-8
Myasthenia gravis
Hypereosinophilic syndrome with generalized myasthenia gravis (Ishida et al). 1996;128:369-72 (CLO)
Mycobacterium infections
Treatment of nontuberculous mycobacterial lymphadenitis with clarithromycin plus rifabutin (Berger et al). 1996;128:383-6 (CLO)
Myelomeningocele; *see* Meningomyelocele
Myocardial diseases
Cardiomyopathy related to acquired immunodeficiency syndrome in children (Steinherz) (Letter); (Domanski et al) (Reply). 1996;128:721

N

NADP
Genotype-dependent variability in flow cytometric evaluation of reduced nicotinamide adenine dinucleotide phosphate oxidase function in patients with chronic granulomatous disease (Vowells et al). 1996;128:104-7 (CLO)
Narcotics
Massive opioid requirements in children with disseminated central nervous system disease (Jones and Wilkinson) (Letter); (Berde) (Reply). 1996;128:864-5
Nasal obstruction
Nasal pyriform aperture stenosis and absence of the anterior pituitary gland: report of two cases (Beregszàszi et al). 1996;128:858-61 (CLO)
Nebulizers and vaporizers
Deposition pattern of radiolabeled salbutamol inhaled from a metered-dose inhaler by means of a spacer with mask in young children with airway obstruction (Tal et al). 1996;128:479-84
Necrotizing jejunitis; *see* Jejunal diseases
Neisseria meningitidis
Immunogenicity of heptavalent pneumococcal conjugate vaccine in infants (Anderson et al). 1996;128:649-53
Neonatal intensive care units; *see* Intensive care units, neonatal
Neonatal screening
Screening infants for hearing impairment (Vohr and Maxon). 1996;128:710-4
Thyroid function in very low birth weight infants: effects on

Neonatal screening—cont'd
neonatal hypothyroidism screening (Frank et al). 1996;128: 548-54
Neonate; *see* Infant, newborn
Neoplasms
Congenital hemangioma: evidence of accelerated involution (Boon et al). 1996;128:329-35
Herpes zoster infection after bone marrow transplantation in children (Kawasaki et al). 1996;128:353-6
Nutrition via gastrostomy tube in children with cancer (Hirsch) (Letter); (Aquino and Sandler) (Reply). 1996;128:164
A pilot study of outpatient management of febrile neutropenic children with cancer at low risk of bacteremia (Mustafa et al). 1996;128:847-9 (CLO)
Right atrial thrombi in children with cancer and indwelling catheters (Korones et al). 1996;128:841-6
Role of Epstein-Barr virus in tumor development (Yunis). 1996;128:438 (Letter)
Nephritis
Focal bacterial nephritis (lobar nephronia) in children (Klar et al). 1996;128:850-3 (CLO)
Nephrosis, lipoid
Increased urinary nitrite excretion in children with minimal change nephrotic syndrome (Trachtman et al). 1996;128:173-6
Neural tube defects
Growth hormone treatment of children with neural tube defects: results from 6 months to 6 years (Rotenstein and Reigel). 1996;128:184-9
Neurofibromatosis
Precocious puberty, growth hormone deficiency, and neurofibromatosis (Vassilopoulou-Sellin) (Letter); (Habiby et al) (Reply). 1996;128:166
Neuroimaging; *see* Magnetic resonance imaging
Neutropenia
A pilot study of outpatient management of febrile neutropenic children with cancer at low risk of bacteremia (Mustafa et al). 1996;128:847-9 (CLO)
Neutrophils
Neutrophil and cytokine activation with neonatal extracorporeal membrane oxygenation (Fortenberry et al). 1996;128:670-8
New books received
The book shelf. 1996;128:96, 108, 140, 156
Nicotinamide adenine dinucleotide phosphate; *see* NADP
Nigeria
Etiology of nutritional rickets: geographic variations (Mimouni). 1996;128:600-1 (Editor's column)
Etiology of rickets in Nigerian children (Oginni et al). 1996; 128:692-4 (CLO)
Nitric oxide
Production of pulmonary vasodilation by tolazoline, independent of nitric oxide production in neonatal lambs (Curtis et al). 1996;128:118-24
Nodule, rheumatoid; *see* Rheumatoid nodule
Non-insulin-dependent diabetes mellitus; *see* Diabetes mellitus, non-insulin-dependent
Nonketotic hyperglycinemia; *see* Glycine
Noonan syndrome
Growth hormone treatment in Noonan syndrome: the National Cooperative Growth Study experience (Romano et al). 1996; 128:S18-21 (Symposium)
Nutrition
Nutrition via gastrostomy tube in children with cancer (Hirsch) (Letter); (Aquino and Sandler) (Reply). 1996;128:164
Nutritional rickets, etiology; *see* Rickets, etiology

O

Obesity
Effect of weight reduction on serum transaminase activities in children with simple obesity (Tazawa et al) (Letter); (Vajro) (Reply). 1996;128:587-8
Increased incidence of non-insulin-dependent diabetes mellitus among adolescents (Pinhas-Hamiel et al). 1996;128:608-15
An ounce of prevention (Chua and Leibel). 1996;128:591-3 (Editor's column)
Raising couch potatoes (little spuds and how they grew—and grew) (Balistreri). 1996;128:591 (Editor's column)
Ointments
Topical ointment therapy benefits premature infants (Nopper et al). 1996;128:660-9
Oligosaccharides
Immunity to *Haemophilus influenzae* type b polysaccharide capsule after vaccination with the complete series of oligosaccharide CRM_{197} conjugate vaccine in infants with human immunodeficiency virus infection (Peters and Sood). 1996;128:363-5 (CLO)
Omeprazole
Effect of omeprazole in the treatment of refractory acid-related diseases in childhood: endoscopic healing and twenty-four-hour intragastric acidity (Kato et al). 1996;128:415-21
Opioids; *see* Narcotics
Oral administration; *see* Administration, oral
Oral rehydration; *see* Fluid therapy
Orbital myositis; *see* Granuloma, plasma cell, orbital
Osmolar concentration
A double-blind clinical trial comparing World Health Organization oral rehydration solution with a reduced osmolarity solution containing equal amounts of sodium and glucose (Santosham et al). 1996;128:45-51
Hyponatremia caused by a reset osmostat in a neonate with cleft lip and palate and panhypopituitarism (Thiagarajan et al). 1996;128:561-3 (CLO)
Osteogenesis imperfecta
Studies of collagen synthesis and structure in the differentiation of child abuse from osteogenesis imperfecta (Steiner et al). 1996;128:542-7
Otitis media, suppurative
Microbial dynamics of persistent purulent otitis media in children (Brook and Frazier). 1996;128:237-40 (CLO)
Outpatients; *see* Ambulatory care
Oxidative phosphorylation
Expanding spectrum of mitochondrial disorders (Sokol). 1996; 128:597-9 (Editor's column)
Oxidative phosphorylation defect associated with primary adrenal insufficiency (North et al). 1996;128:688-92 (CLO)
Oxidoreductases
Genotype-dependent variability in flow cytometric evaluation of reduced nicotinamide adenine dinucleotide phosphate oxidase function in patients with chronic granulomatous disease (Vowells et al). 1996;128:104-7 (CLO)

P

Pancreatitis
Acute pancreatitis in a patient with glutaric acidemia type I (Lemire et al). 1996;128:589-90 (Letter)
Panhypopituitarism; *see* Hypopituitarism
Parenteral nutrition
Effect of parenteral amino acids on leucine and urea kinetics in preterm infants (Battista et al). 1996;128:130-4
Parenteral nutrition, total
Pharmacokinetics and effectiveness of recombinant erythropoietin administered to preterm infants by continuous infusion in total parenteral nutrition solution (Ohls et al). 1996;128:518-23
Passive immunization; *see* Immunization, passive
Patent ductus arteriosus; *see* Ductus arteriosus, patent
Patient admission
Variability in duration of stay in pediatric intensive care units: a multiinstitutional study (Ruttimann and Pollack). 1996;128: 35-44

Patient discharge
Possible risks of early discharge of neonates from a neonatal intensive care unit (Möller et al) (Letter); (Grylack) (Letter); (Kotagal and Perlstein) (Reply). 1996;128:443-5
Pectus excavatum; *see* Funnel chest
Pediatric intensive care units; *see* Intensive care units, pediatric
Penicillins
Colonization with antibiotic-resistant *Streptococcus pneumoniae* in children with sickle cell disease (Steele et al). 1996;128:531-5
Resisting the urge to prescribe (Edwards). 1996;128:729-30 (Editor's column)
Risk factors for carriage of drug-resistant *Streptococcus pneumoniae* among children in Memphis, Tennessee (Arnold et al). 1996;128:757-64
Peptic ulcer
Effect of omeprazole in the treatment of refractory acid-related diseases in childhood: endoscopic healing and twenty-four-hour intragastric acidity (Kato et al). 1996;128:415-21
Pertussis; *see* Whooping cough
Pharmacokinetics
Pharmacokinetics and effectiveness of recombinant erythropoietin administered to preterm infants by continuous infusion in total parenteral nutrition solution (Ohls et al). 1996;128:518-23
Phenotype
Hypotonic dehydration in cystic fibrosis: Mild or severe disease phenotype? (Bianchetti and Mauri). 1996;128:723 (Letter)
Mild CF phenotype associated with T338I missense mutation (Padoan et al). 1996;128:721-2 (Letter)
Phenylketonuria, maternal
Maternal phenylketonuria: magnetic resonance imaging of the brain in offspring (Levy et al). 1996;128:770-5
Physician charges; *see* Fees and charges
Pilot projects
Pilot study to assess the effect of inhaled corticosteroids on lung function in patients with cystic fibrosis (Nikolaizik and Schöni). 1996;128:271-4
Pituitary dwarfism; *see* Dwarfism, pituitary
Pituitary gland, anterior
Nasal pyriform aperture stenosis and absence of the anterior pituitary gland: report of two cases (Beregszàszi et al). 1996;128:858-61 (CLO)
Pleuropulmonary blastoma
Pleuropulmonary blastoma: a marker for familial disease (Priest et al). 1996;128:220-4
Pneumococcal infections
Antibiotic-resistant pneumococci (Friedland) (Letter); (Chesney et al) (Reply). 1996;128:862-3
Immunogenicity of heptavalent pneumococcal conjugate vaccine in infants (Anderson et al). 1996;128:649-53
Pneumococcal polysaccharide vaccine in children with chronic renal disease: a prospective study of antibody response and duration (Furth et al). 1996;128:99-101 (CLO)
Pneumonia
Randomized multicenter trial comparing synchronized and conventional intermittent mandatory ventilation in neonates (Bernstein et al). 1996;128:453-63
Polymers
Glucose polymer as a cause of protracted diarrhea in infants with unsuspected congenital sucrase-isomaltase deficiency (Newton et al). 1996;128:753-6
Polymorphism; *see* Genetics
Polysaccharides
Immunity to *Haemophilus influenzae* type b polysaccharide capsule after vaccination with the complete series of oligosaccharide CRM_{197} conjugate vaccine in infants with human immunodeficiency virus infection (Peters and Sood). 1996;128:363-5 (CLO)
Pneumococcal polysaccharide vaccine in children with chronic renal disease: a prospective study of antibody response and duration (Furth et al). 1996;128:99-101 (CLO)
Total and functional antibody response to a quadrivalent meningococcal polysaccharide vaccine among children (King et al). 1996;128:196-202
Population
Clinical heterogeneity in congenital sucrase-isomaltase deficiency (Treem). 1996;128:727-9 (Editor's column)
Postdiarrheal disease; *see* Diarrhea
Postnatal care
Prophylactic indomethacin therapy in the first twenty-four hours of life for the prevention of patent ductus arteriosus in preterm infants treated prophylactically with surfactant in the delivery room (Couser et al). 1996;128:631-7
Recommendations for the postnatal use of indomethacin: an analysis of four separate treatment strategies (Clyman). 1996;128:601-7 (Editor's column)
Postvaricella complications; *see* Chickenpox
Precocious puberty; *see* Puberty, precocious
Predictive value of tests
Balloon defecation as a predictor of outcome in children with functional constipation and encopresis (Loening-Baucke). 1996;128:336-40
Prediction of neonatal hyperthyroidism in infants born to mothers with Graves disease (Skuza et al). 1996;128:264-7
Somatosensory evoked potentials: predictors of outcome in children with severe brain injury (Adams et al) (Letter); (Cox) (Reply). 1996;128:438-9
Prednisone
Treatment of hemangiomas of infants with high doses of prednisone (Sadan and Wolach). 1996;128:141-6
Premature infant; *see* Infant, premature
Prenatal diagnosis
Prenatal and perinatal factors and cerebral palsy in very low birth weight infants (Grether et al). 1996;128:407-14
Preschool child; *see* Child, preschool
Preterm infant; *see* Infant, premature
Procalcitonin; *see* Calcitonin
Profiles
Hattie E. Alexander (1901–1968) (Katz). 1996;128:717-8 (Profiles)
Horace L. Hodes (1907–1989) (Hirschhorn). 1996;128:436-7 (Profiles)
Sidney Farber (1903–1973) (Craig). 1996;128:160-2 (Pro-files)
Prognosis
Futile care in the pediatric intensive care unit: ethical and economic considerations (Tilford and Fiser). 1996;128:725-7 (Editor's column)
Resource consumption and the extent of futile care among patients in a pediatric intensive care unit setting (Sachdeva et al). 1996;128:742-7
Prone position
Error prone? (Carrillo) (Letter); (Martin and Brooks) (Reply). 1996;128:865-6
Face-straight-down and face-near-straight-down positions in healthy, prone-sleeping infants (Waters et al). 1996;128:616-25
Prone sleep position and the sudden infant death syndrome in King County, Washington: a case-control study (Taylor et al). 1996;128:626-30
Prone sleeping in healthy infants and victims of sudden infant death syndrome (Hunt). 1996;128:594-6 (Editor's column)
Prophylaxis
Prophylactic indomethacin therapy in the first twenty-four hours of life for the prevention of patent ductus arteriosus in preterm infants treated prophylactically with surfactant in the delivery room (Couser et al). 1996;128:631-7
Protein C
Neonatal purpura fulminans in association with factor V R506Q mutation (Pipe et al). 1996;128:706-9 (CLO)
Thrombosis in otherwise well children with the factor V Leiden mutation (Sifontes et al). 1996;128:324-8
Protein-losing enteropathies
Enteropathy and IgG subclass deficiency (Garty). 1996;128:722-3 (Letter)

Protein S
Lupus anticoagulant and protein S deficiency in children with postvaricella purpura fulminans or thrombosis (Manco-Johnson et al). 1996;128:319-23
Proteins
Effect of protein intake on erythropoiesis during erythropoietin treatment of anemia of prematurity (Brown and Shapiro). 1996;128:512-7
Prothrombin time
Successful medical treatment of severely decompensated Wilson disease (Silva et al). 1996;128:285-7 (CLO)
Protracted diarrhea; *see* Diarrhea
Puberty
Thyroid function and serum thyroid binding proteins in prepubertal and pubertal children with chronic renal insufficiency receiving conservative treatment, undergoing hemodialysis, or receiving care after renal transplantation (Castellano et al). 1996;128:784-90
Puberty, precocious
Precocious puberty, growth hormone deficiency, and neurofibromatosis (Vassilopoulou-Sellin) (Letter); (Habiby et al) (Reply). 1996;128:166
Publishing
Building on a tradition (Balistreri). 1996;128:97-8 (Editor's column)
Pulmonary surfactants
A multicenter randomized, masked comparison trial of natural versus synthetic surfactant for the treatment of respiratory distress syndrome (Hudak et al). 1996;128:396-406
Purine nucleoside phosphorylase
Correction of purine nucleoside phosphorylase deficiency by transplantation of allogeneic bone marrow from a sibling (Broome et al). 1996;128:373-6 (CLO)
Purpura
Lupus anticoagulant and protein S deficiency in children with postvaricella purpura fulminans or thrombosis (Manco-Johnson et al). 1996;128:319-23
Neonatal purpura fulminans in association with factor V R506Q mutation (Pipe et al). 1996;128:706-9 (CLO)
Purpura, thrombocytopenic, idiopathic
High-dose oral dexamethasone therapy for chronic childhood idiopathic thrombocytopenic purpura (Adams et al). 1996;128:281-3 (CLO)
Purulent otitis media; *see* Otitis media, suppurative

Q

QT interval; *see* Electrocardiography

R

Radiolabeled inhalant; *see* Nebulizers and vaporizers
Ranitidine
Ultrasound measurement of gastric emptying time in patients with cystic fibrosis and effect of ranitidine on delayed gastric emptying (Cucchiara et al). 1996;128:485-8
Receptors, Fc
Relationship between Fc receptor IIA polymorphism and infection in children with sickle cell disease (Norris et al). 1996;128:813-9
Recombinant erythropoietin; *see* Erythropoietin
Recombinant human growth hormone; *see* Somatotropin
Rectus muscle palsy; *see* Eye diseases
Recurrence
Brain tumor recurrence in children treated with growth hormone: the National Cooperative Growth Study experience (Moshang et al). 1996;128:S4-7 (Symposium)
Frequent recurrence and persistence of varicella-zoster virus infections in children infected with human immunodeficiency virus type 1 (von Seidlein et al). 1996;128:52-7
Transient congenital hypoparathyroidism: resolution and recurrence in chromosome 22q11 deletion (Greig et al). 1996;128: 563-7 (CLO)
Reference values
Reference intervals for serum granulocyte colony-stimulating factor levels in children (Ishiguro et al). 1996;128:208-12
Refractory partial epilepsy; *see* Epilepsy
Rehydration solutions
A double-blind clinical trial comparing World Health Organization oral rehydration solution with a reduced osmolarity solution containing equal amounts of sodium and glucose (Santosham et al). 1996;128:45-51
Reinfection; *see* Infection
Reiter's disease
Reiter syndrome initially misdiagnosed as Kawasaki disease (Bauman et al). 1996;128:366-9 (CLO)
Renal disease; *see* Kidney diseases
Renal function; *see* Kidney, physiology
Renal insufficiency; *see* Kidney failure
Renal transplantation; *see* Kidney transplantation
Renal tubular abnormality; *see* Kidney diseases
Respiration, artificial
Randomized multicenter trial comparing synchronized and conventional intermittent mandatory ventilation in neonates (Bernstein et al). 1996;128:453-63
Respiration disorders
Anemia in children with breath-holding spells (Yilmaz and Kükner). 1996;128:440-1 (Letter)
Respiratory airflow
The Beck Airway Air Flow Monitor as an aid for evaluation of endotracheal tube placement in neonatal patients (Cook and Moglia). 1996;128:568-70 (CLO)
Respiratory distress syndrome
A multicenter randomized, masked comparison trial of natural versus synthetic surfactant for the treatment of respiratory distress syndrome (Hudak et al). 1996;128:396-406
Randomized multicenter trial comparing synchronized and conventional intermittent mandatory ventilation in neonates (Bernstein et al). 1996;128:453-63
Respiratory function tests
Decreased ventilatory response to hypoxia in sedated newborn piglets prenatally exposed to cocaine (Suguihara et al). 1996;128:389-95
Respiratory insufficiency
Effectiveness of ribavirin in otherwise well infants with respiratory syncytial virus–associated respiratory failure (Moler et al). 1996;128:422-8
Neutrophil and cytokine activation with neonatal extracorpo-real membrane oxygenation (Fortenberry et al). 1996;128:670-8
Respiratory syncytial viruses
Effectiveness of ribavirin in otherwise well infants with respiratory syncytial virus–associated respiratory failure (Moler et al). 1996;128:422-8
Invasive monitoring in infants with respiratory syncytial virus infection (Willson et al). 1996;128:357-62
Respiratory tract diseases
Error prone? (Carrillo) (Letter); (Martin and Brooks) (Reply). 1996;128:865-6
Respiratory tract infections
Low birth weight and morbidity from diarrhea and respiratory infection in northeast Brazil (Lira et al). 1996;128:497-504
Rheumatoid nodule
Accelerated nodulosis during methotrexate therapy for juvenile rheumatoid arthritis (Muzaffer et al). 1996;128:698-700 (CLO)
Ribavirin
Effectiveness of ribavirin in otherwise well infants with respiratory syncytial virus–associated respiratory failure (Moler et al). 1996;128:422-8
Rice
Isolated rice intolerance: clinical and immunologic characteristics in four infants (Cavataio et al). 1996;128:558-60 (CLO)
Rickets, etiology
Etiology of nutritional rickets: geographic variations (Mimouni). 1996;128:600-1 (Editor's column)

Rickets, etiology—cont'd
Etiology of rickets in Nigerian children (Oginni et al). 1996; 128:692-4 (CLO)
Rifabutin
Treatment of nontuberculous mycobacterial lymphadenitis with clarithromycin plus rifabutin (Berger et al). 1996;128:383-6 (CLO)
Right atrial thrombi; *see* Thrombus
Risk factors
Early detection of specific IgE antibody against house dust mite in children at risk of allergic disease (Sasai et al). 1996;128: 834-40
Effects of a school-based intervention to reduce cardiovascular disease risk factors in elementary-school children: the Cardiovascular Health in Children (CHIC) Study (Harrell et al). 1996;128:797-805
Increased risk of reported pertussis and hospitalization associated with pertussis in low birth weight children (Langkamp and Davis). 1996;128:654-9
A pilot study of outpatient management of febrile neutropenic children with cancer at low risk of bacteremia (Mustafa et al). 1996;128:847-9 (CLO)
Possible risks of early discharge of neonates from a neonatal intensive care unit (Möller et al) (Letter); (Grylack) (Letter); (Kotagal and Perlstein) (Reply). 1996;128:443-5
Prenatal and perinatal factors and cerebral palsy in very low birth weight infants (Grether et al). 1996;128:407-14
Risk factors for carriage of drug-resistant *Streptococcus pneumoniae* among children in Memphis, Tennessee (Arnold et al). 1996;128:757-64
Rubber
Current perspectives on latex allergy (Landwehr and Boguniewicz). 1996;128:305-12

S

Safety
Safety of human growth hormone therapy: current topics (Allen). 1996;128:S8-13 (Symposium)
Utility of the National Cooperative Growth Study database for safety reporting (Graves and National Cooperative Growth Study). 1996;128:S1-3 (Symposium)
Salbutamol; *see* Albuterol
Schools
Effects of a school-based intervention to reduce cardiovascular disease risk factors in elementary-school children: the Cardiovascular Health in Children (CHIC) Study (Harrell et al). 1996; 128:797-805
Screening, neonatal; *see* Neonatal screening
Sedatives; *see* Hypnotics and sedatives
Seizures
Efficacy of gabapentin therapy in children with refractory partial seizures (Khurana et al). 1996;128:829-33
Septicemia
Procalcitonin as a marker for the early diagnosis of neonatal infection (Gendrel et al). 1996;128:570-3 (CLO)
A two-year follow-up of neonates with presumed sepsis treated with recombinant human granulocyte colony-stimulating factor during the first week of life (Rosenthal et al). 1996;128:135-7 (CLO)
Usefulness of soluble interleukin-2 receptor specificity (Wyman and Engle) (Letter); (Spear et al) (Reply). 1996;128:445-6
Shiga-like toxins; *see* Toxins
Short stature; *see* Growth disorders
Sickle cell anemia; *see* Anemia, sickle cell
Sinusitis
Cough with asthma: Variant or norm? (Callahan) (Letter); (Wald) (Reply). 1996;128:440
Skin
Production of interleukin-5 and the suppressive effect of cyclosporin A in childhood severe atopic dermatitis (Ishii et al). 1996;128:152-5 (CLO)
Topical ointment therapy benefits premature infants (Nopper et al). 1996;128:660-9
Sleep
Face-straight-down and face-near-straight-down positions in healthy, prone-sleeping infants (Waters et al). 1996;128:616-25
Physiology of growth hormone secretion during sleep (Van Cauter and Plat). 1996;128:S32-7 (Symposium)
Prone sleep position and the sudden infant death syndrome in King County, Washington: a case-control study (Taylor et al). 1996;128:626-30
Prone sleeping in healthy infants and victims of sudden infant death syndrome (Hunt). 1996;128:594-6 (Editor's column)
Small bowel; *see* Intestine, small
Smoking
Increased blood pressure in neonates and infants whose mothers smoked during pregnancy (Beratis et al). 1996;128:806-12
Sodium
A double-blind clinical trial comparing World Health Organization oral rehydration solution with a reduced osmolarity solution containing equal amounts of sodium and glucose (Santosham et al). 1996;128:45-51
Somatic growth; *see* Growth
Somatomedins
Assays for insulin-like growth factors and their binding proteins: practicalities and pitfalls (Rosenfeld and Gargosky). 1996; 128:S52-7 (Symposium)
Somatosensory evoked potentials; *see* Evoked potentials, somatosensory
Somatotropin
Assays for insulin-like growth factors and their binding proteins: practicalities and pitfalls (Rosenfeld and Gargosky). 1996; 128:S52-7 (Symposium)
Brain tumor recurrence in children treated with growth hormone: the National Cooperative Growth Study experience (Moshang et al). 1996;128:S4-7 (Symposium)
Effects of recombinant human growth hormone on renal function in children with renal transplants (Maxwell et al). 1996;128: 177-83
Growth hormone deficiency in adults: characteristics and response to GH replacement (Lieberman and Hoffman). 1996;128:S58-60 (Symposium)
Growth hormone measurements versus auxology in treatment decisions: the Australian experience (Werther). 1996;128: S47-51 (Symposium)
Growth hormone treatment of children with myelomeningocele (Rotenstein and Breen). 1996;128:S28-31 (Symposium)
Growth hormone treatment in Noonan syndrome: the National Cooperative Growth Study experience (Romano et al). 1996;128:S18-21 (Symposium)
Growth hormone treatment of children with neural tube defects: results from 6 months to 6 years (Rotenstein and Reigel). 1996;128:184-9
Linear growth in response to growth hormone treatment in children with short stature associated with intrauterine growth retardation: the National Cooperative Growth Study experience (Chernausek et al). 1996;128:S22-7 (Symposium)
National Cooperative Growth Study substudy II: Do growth hormone levels from serial sampling add important diagnostic information? (Rogol et al). 1996;128:S42-6 (Symposium)
Overview of the National Cooperative Growth Study substudy of serial growth hormone measurements (Blethen et al). 1996; 128:S38-41 (Symposium)
Physician and clinic charges for diagnosing growth hormone deficiency (Kirkland et al). 1996;128:S61-2 (Symposium)
Physiology of growth hormone secretion during sleep (Van Cauter and Plat). 1996;128:S32-7 (Symposium)
Precocious puberty, growth hormone deficiency, and neurofibromatosis (Vassilopoulou-Sellin) (Letter); (Habiby et al) (Reply). 1996;128:166

Somatotropin
Response to growth hormone in children with chondrodysplasia (Key and Gross). 1996;128:S14-7 (Symposium)
Safety of human growth hormone therapy: current topics (Allen). 1996;128:S8-13 (Symposium)
Utility of the National Cooperative Growth Study database for safety reporting (Graves and National Cooperative Growth Study). 1996;128:S1-3 (Symposium)
Spinal extradural hematoma; *see* Hematoma, epidural
Spinal puncture
Lumbar puncture in the evaluation of possible asymptomatic congenital syphilis in neonates (Beeram et al). 1996;128:125-9
Spine, abnormalities
Spinal extradural hematoma in an infant with hemophilia A: an unusual presentation of a rare complication (Hutt et al). 1996;128:704-6 (CLO)
Stem cells
Persistence of fetal hemoglobin production after successful transplantation of cord blood stem cells in a patient with sickle cell anemia (Brichard et al). 1996;128:241-3 (CLO)
Steroids
Extrapulmonary effects of antenatally administered steroids (Padbury et al). 1996;128:167-72
Macroglossia: more than meets the eye (Scheuerle). 1996;128:865 (Letter)
Steroid-resistant chronic urticaria associated with anti-thyroid microsomal antibodies in a nine-year-old boy (Dreyfus et al). 1996;128:576-8 (CLO)
Strabismus
Acute rectus muscle palsy in children as a result of orbital myositis (Pollard). 1996;128:230-3
Streptococcus pneumoniae
Colonization with antibiotic-resistant *Streptococcus pneumoniae* in children with sickle cell disease (Steele et al). 1996;128:531-5
Resisting the urge to prescribe (Edwards). 1996;128:729-30 (Editor's column)
Risk factors for carriage of drug-resistant *Streptococcus pneumoniae* among children in Memphis, Tennessee (Arnold et al). 1996;128:757-64
Stress
Stress and incidence of bleeding in children and adolescents with hemophilia (Perrin et al). 1996;128:82-8
Subarachnoid fluid
Subarachnoid fluid collections: a cause of macrocrania in preterm infants (Al-Saedi et al). 1996;128:234-6 (CLO)
Substance abuse
Decreased ventilatory response to hypoxia in sedated newborn piglets prenatally exposed to cocaine (Suguihara et al). 1996;128:389-95
Sucrase-isomaltase complex
Clinical heterogeneity in congenital sucrase-isomaltase deficiency (Treem). 1996;128:727-9 (Editor's column)
Glucose polymer as a cause of protracted diarrhea in infants with unsuspected congenital sucrase-isomaltase deficiency (Newton et al). 1996;128:753-6
Sudden infant death
Error prone? (Carrillo) (Letter); (Martin and Brooks) (Reply). 1996;128:865-6
Face-straight-down and face-near-straight-down positions in healthy, prone-sleeping infants (Waters et al). 1996;128:616-25
Prone sleep position and the sudden infant death syndrome in King County, Washington: a case-control study (Taylor et al). 1996;128:626-30
Prone sleeping in healthy infants and victims of sudden infant death syndrome (Hunt). 1996;128:594-6 (Editor's column)
Suppressor factors, immunologic
Production of interleukin-5 and the suppressive effect of cyclosporin A in childhood severe atopic dermatitis (Ishii et al). 1996;128:152-5 (CLO)
Surface-active agents
A multicenter randomized, masked comparison trial of natural versus synthetic surfactant for the treatment of respiratory distress syndrome (Hudak et al). 1996;128:396-406
Prophylactic indomethacin therapy in the first twenty-four hours of life for the prevention of patent ductus arteriosus in preterm infants treated prophylactically with surfactant in the delivery room (Couser et al). 1996;128:631-7
Surfactants, pulmonary; *see* Pulmonary surfactants
Surfactants, synthetic; *see* Surface-active agents
Surgery, operative
Cardiorespiratory function before and after corrective surgery in pectus excavatum (Quigley et al). 1996;128:638-43
Symposium
National Cooperative Growth Study: 10 Years of Guidance in Growth. 1996;128:S1-62
Syphilis, congenital
Lumbar puncture in the evaluation of possible asymptomatic congenital syphilis in neonates (Beeram et al). 1996;128:125-9

T

Tetanus toxoid
Comparison of five different vaccination schedules with *Haemophilus influenzae* type b–tetanus toxoid conjugate vaccine (Kurikka et al). 1996;128:524-30
Thrombocytopenia
Neonatal thrombocytopenia caused by passive transfer of anti-PL^{A1} antibody by blood transfusion (Marzich et al). 1996;128:137-9 (CLO)
Thromboembolism
Low-molecular-weight heparin in pediatric patients with thrombotic disease: a dose finding study (Massicotte et al). 1996;128: 313-8
Thrombosis
Lupus anticoagulant and protein S deficiency in children with postvaricella purpura fulminans or thrombosis (Manco-Johnson et al). 1996;128:319-23
Neonatal purpura fulminans in association with factor V R506Q mutation (Pipe et al). 1996;128:706-9 (CLO)
Thrombosis in otherwise well children with the factor V Leiden mutation (Sifontes et al). 1996;128:324-8
Thrombotic disease; *see* Thromboembolism
Thrombus
Right atrial thrombi in children with cancer and indwelling catheters (Korones et al). 1996;128:841-6
Thyroid diseases
Steroid-resistant chronic urticaria associated with anti-thyroid microsomal antibodies in a nine-year-old boy (Dreyfus et al). 1996;128:576-8 (CLO)
Thyroid abnormalities in children infected with human immunodeficiency virus (Hirschfeld et al). 1996;128:70-4
Thyroid function tests
Effect of methimazole treatment of maternal thyrotoxicosis on thyroid function in breast-feeding infants (Azizi). 1996;128:855-7 (CLO)
Thyroid function and serum thyroid binding proteins in prepubertal and pubertal children with chronic renal insufficiency receiving conservative treatment, undergoing hemodialysis, or receiving care after renal transplantation (Castellano et al). 1996;128:784-90
Thyroid function in very low birth weight infants: effects on neonatal hypothyroidism screening (Frank et al). 1996;128: 548-54
Thyroid gland
Thyroid function and serum thyroid binding proteins in prepubertal and pubertal children with chronic renal insufficiency receiving conservative treatment, undergoing hemodialysis, or receiving care after renal transplantation (Castellano et al). 1996;128:784-90
Thyrotoxicosis
Effect of methimazole treatment of maternal thyrotoxicosis on thyroid function in breast-feeding infants (Azizi). 1996;128:855-7 (CLO)

Tissue donors
Use of minors as bone marrow donors: current attitude and management—a survey of 56 pediatric transplantation centers (Chan et al). 1996;128:644-8
Tolazoline
Production of pulmonary vasodilation by tolazoline, independent of nitric oxide production in neonatal lambs (Curtis et al). 1996;128:118-24
Tongue, abnormalities
Macroglossia: more than meets the eye (Scheuerle). 1996;128:865 (Letter)
Topical administration; *see* Administration, topical
Total parenteral nutrition; *see* Parenteral nutrition, total
Toxins
Diarrhea in young children associated with *Escherichia coli* non-O157 organisms that produce Shiga-like toxin (Huppertz et al). 1996;128:341-6
Trachea, surgery
Extracorporeal membrane oxygenation as a bridge to definitive tracheal surgery in children (Goldman et al). 1996;128:386-8 (CLO)
Transaminases; *see* Aminotransferases
Transforming growth factor alpha
Ménétrier disease of childhood: role of cytomegalovirus and transforming growth factor alpha (Sferra et al). 1996;128:213-9
Transforming growth factor beta
Increase in the concentration of transforming growth factor beta-1 in bronchoalveolar lavage fluid before development of chronic lung disease of prematurity (Kotecha et al). 1996;128: 464-9
Transient neonatal diabetes mellitus; *see* Diabetes mellitus
Transplantation
Persistence of fetal hemoglobin production after successful transplantation of cord blood stem cells in a patient with sickle cell anemia (Brichard et al). 1996;128:241-3 (CLO)
Transplantation of bone marrow; *see* Bone marrow transplantation
Tumors; *see* Neoplasms

U

Ultralente insulin; *see* Insulin
Ultrasonography
Ultrasound measurement of gastric emptying time in patients with cystic fibrosis and effect of ranitidine on delayed gastric emptying (Cucchiara et al). 1996;128:485-8
Urea
Effect of parenteral amino acids on leucine and urea kinetics in preterm infants (Battista et al). 1996;128:130-4
Uric acid
Abnormal serum uric acid levels in children (Wilcox). 1996;128: 731-41
Urinary retention
Herpes simplex virus type 2 infection associated with urinary retention in the absence of genital lesions (Gerber and Cromie). 1996;128:250-1 (CLO)
Urinary tract infections
Effect of circumcision on incidence of urinary tract infection in preschool boys (Craig et al). 1996;128:23-7
Routine diagnostic imaging for childhood urinary tract infections: a systematic overview (Dick and Feldman). 1996;128:15-22
Urine
Circadian variations of urinary electrolyte concentrations in preterm and term infants (Trotter et al). 1996;128:253-6
Increased urinary nitrite excretion in children with minimal change nephrotic syndrome (Trachtman et al). 1996;128:173-6
Urticaria
Exercise-induced anaphylaxis related to specific foods (Policastro) (Letter); (Tilles et al) (Reply). 1996;128:724
Steroid-resistant chronic urticaria associated with anti-thyroid microsomal antibodies in a nine-year-old boy (Dreyfus et al). 1996;128:576-8 (CLO)

V

Vaccines
Comparison of five different vaccination schedules with *Haemophilus influenzae* type b–tetanus toxoid conjugate vaccine (Kurikka et al). 1996;128:524-30
Immunity to *Haemophilus influenzae* type b polysaccharide capsule after vaccination with complete series of oligosaccharide CRM_{197} conjugate vaccine in infants with human immunodeficiency virus infection (Peters and Sood). 1996;128:363-5 (CLO)
Immunogenicity of heptavalent pneumococcal conjugate vaccine in infants (Anderson et al). 1996;128:649-53
Pneumococcal polysaccharide vaccine in children with chronic renal disease: a prospective study of antibody response and duration (Furth et al). 1996;128:99-101 (CLO)
Total and functional antibody response to a quadrivalent meningococcal polysaccharide vaccine among children (King et al). 1996;128:196-202
Valproic acid
Effect of valproate on bone mineral density (Gillis et al). 1996; 128:441 (Letter)
Varicella-zoster virus
Frequent recurrence and persistence of varicella-zoster virus infections in children infected with human immunodeficiency virus type 1 (von Seidlein et al). 1996;128:52-7
Vasodilation
Production of pulmonary vasodilation by tolazoline, independent of nitric oxide production in neonatal lambs (Curtis et al). 1996;128:118-24
Ventilatory response, decreased; *see* Respiratory function tests
Very low birth weight infant; *see* Infant, low birth weight
Vitamin A
Impact of neonatal vitamin A supplementation on infant morbidity and mortality (Humphrey et al). 1996;128:489-96
Vitamin D
Etiology of nutritional rickets: geographic variations (Mimouni). 1996;128:600-1 (Editor's column)
Etiology of rickets in Nigerian children (Oginni et al). 1996;128: 692-4 (CLO)

W

Weight loss
Effect of weight reduction on serum transaminase activities in children with simple obesity (Tazawa et al) (Letter); (Vajro) (Reply). 1996;128:587-8
Whooping cough
Increased risk of reported pertussis and hospitalization associated with pertussis in low birth weight children (Langkamp and Davis). 1996;128:654-9
Wilson disease; *see* Hepatolenticular degeneration
World Health Organization
A double-blind clinical trial comparing World Health Organization oral rehydration solution with a reduced osmolarity solution containing equal amounts of sodium and glucose (Santosham et al). 1996;128:45-51

Z

Zidovudine
Cardiomyopathy related to acquired immunodeficiency syndrome in children (Steinherz) (Letter); (Domanski et al) (Reply). 1996;128:721
Zollinger-Ellison syndrome
Effect of omeprazole in the treatment of refractory acid-related diseases in childhood: endoscopic healing and twenty-four-hour intragastric acidity (Kato et al). 1996;128:415-21
